Quick Relief Now From Neuralgia

Real ASPIRIN Starts Taking Hold in Few Minutes

Now comes amazingly quick relief from headaches, rheumatism, neuritis, neuralgia . . . the fastest safe relief, it is said, yet discovered.

Those results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking. The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instant-

ly you swallow it. And thus is ready to-go to work almost instantly. When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN'S quick relief, be sure the name Bayer in the form of

a cross is on every tablet of Aspirin.
