PORT SIMPSON, Sept. 28:-The Canadian destroyers H. M. C. S. Steena and Vancouver arrived here Monday afternoon and were recelved by the council, chiefs and people. During the day there was a sports program. At football the Navy team won by a score of 3-2 and also completely vanquished the local southall team.

An interesting contest was the boat race in which the crew of H. M. C. S. Skeena pulled against a Port Simpson crew using a boat from one of the visiting ships. The race was nulled over a mile course and the Simpson crew won by a boat length from the ship's crew.

During the evening the band of the ships entertained the villagers with a number of selections.

In the evening a presentation of a chief's dancing rattle was made ELIJAH Coming Before Christ," to Lieutenant-Commander Hough-Wonderful book sent free. G. S. ton of H. M. C. S. Vancouver in Megiddo Mission, Rochester, New marking this the first visit of this York 1231) ship to Port Simpson. The presentation was made by Chief Harry Brooks and Lieutenant-Commander Houghton of the Vancouver and Commander Oland of the Skeena made fitting replies.

Premier Production About Same Value This Year as Last-Hydraulicking Project at Hixon Creek -Premier-B.C. Silver Negotiations

Production at the Premier mine in the Portland Canal listrict this year, while lower in volume, is of about the same value as last year, according to figures just issued covering operations for the first half of 1934. The figures show that recovery from 91,850 tons in the first half of 1934 was 21,696 ounces of gold and 357,730 ounces of silver.

\$758,794 or approximately \$8.26 per tion to the B. C. Silver Mines Ltd., .933 indicate that advance of price companies had been found by which n gold and silver has offret decline n output of these me' is per ton if ore treated. Indications are that the value of 1934 production will approximate that of 1933. In the entire year 1933 the company mill-Forester, Prince Rupert, the Licence od 185,421 tons, producing 51,863 X17400 to cut 4.637,000 feet, board mea-sure, of Spruce, Cedar and Hemlock on an
