LIBRARY IN NEED FUNDS

Lack of Money For Binding and New Books Causes Lack of Interest

While there has been a drop in the circulation of books at the public library during the past year compared with the past two years, the number of volumes taken out in 1933 was still ten thousand more than in 1930 in spite of the fact that no new volumes have been purchased from public funds. In her annual report submitted to the Library Board at its final meeting for the year last night, President George Wilkinson presiding, Miss Cruikshank, the librarian, pointed out that the circulation of books had for the past three years been abnormal owing to the unemployment situation.

Miss Cruikshank referred to the liberal way in which the library had been supported by donation of books and cash. Many of the books contributed during the Gyro drive had been placed on the shelves and the remainder were at the City Hall and work on them was proceeding. The Toc H. whist drive supplemented by two donations had made $100.50 available for the juvenile section.

The lack of funds for binding books had been felt very keenly, a number of the most popular volumes being now unfit for circulation. The public is deprived of them and they remain in permanent reserve. The library is approaching a condition in which the shelves will contain only books that have a small popular appeal or those so old as they have been read by most of the borrowers.

During the year 1122 volumes were placed on the shelves but owing to many discards the net gain was only 257 for the year. Reference was made in the report to the increasing demand for books on sociology, the number having increase dfrom 247 in 1930 to 520 in 1933. In summing up Miss Cruikshank said:

"Everywhere the demands upon public libraries continue to be very heavy; unemployment is still widespread, leisure is enforced, education for work is desired, reading is essential for mental relaxation and is the sole resource of those without money for amusements. In our own case, without rebinding, replacements or new books, the collecton must diminish to such a point that it will be impossible to maintain activity. To regain lost ground later will be a long and expensive process, but at the present moment it is still possible to arrest the downward tendency at moderate cost, and to assure to the library a reasonable state of usefulness to the community."

Secretary's Report

Secretary Thomas Black in his report also referred to the lack of funds for buying and binding books, resulting in a marked decline in circulation. He drew attention to the interesting fact that 3,769 people were listed as patrons of the library, an increase of 74 over the previous year. Books available numbered 8,760 but many of them were practically worn out, and are rapidly being withdrawn as unfit for further use. He commended Miss Cruikshank and Miss Miller on the excellent service maintained. The board functioned at the discretion of the commissioner. During the year they attended meetings as follows: G. V. Wilkinson (chairman) 11, T. B. Black 11, F. Dibb, 9, H. Breen 9, V. Basso-Bert 9, H. F. Pullen 6 and R. McLeod 6.

"Riding" of Eddie Shore on Return To Hockey Ice Will Not Be Tolerated, Says Bruins' Pilot

BOSTON, January 10 (Canadian Press)—Art Ross, manager of the Boston Bruins National Hockey League Club, announces that every protection will be accorded Eddie Shore on his return to the ice in league play on January 28 from fans who may attempt to jeer him. Ross states that Shore, who has been under a sixteen-game suspension, has already suffered great mental anguish as a result of the incident in which he tripped Irvin (Ace) Bailey of the Torontos, causing him a severe skull fracture which nearly resulted fatally.

"If fans try to ride Shore on his return to the ice, they will not see him play," declared Ross. "We intend to protect him to the limit."
