PULP MILL PROSPECTS

F. L. Buckley Says Project Going Ahead and Appears Certain Of Fruition

Here to open negotiations with the city in regard to matters pertaining to the proposed pulp mill project here, and to arrange for taking of soundings of the site at Seal Cove, etc., F. L. Buckley and Olier Besner arrived in the city on the Prince George this morning from Vancouver.

Due to improved conditions throughout the country generally, Mr. Buckley says that prospects for the project are much brighter than ever before and he is now confident that it will go steadily ahead towards fruition.

Mr. Buckley declared that it seemed safe to say now that the pulp mill was definitely coming to Prince Rupert. Of course, there were still negotiations upon which much would depend.

Mr. Buckley has just returned to the coast from a trip to St, Paul and Minenapolis in connection with the project. He expects to return to Vancouver Friday

Of San Francisco-Outstanding Events in Career

British Columbia Fishermen and Canners in Favor of Lifting Canadian Restrictions if United States Fails to Approve Treaty

OTTAWA, June 6: (CP)—If the international sockeye salmon treaty is not approved by the United States Senate, fishermen and canneries in British Columbia advocate removing all restrictions now operating against Canadian fishermen in the Fraser River, Thomas Reid, Liberal member for New Westminster, told the Senate com-

mittee on fisheries yesterday. Mr. Reid explained to the committee the belief of British Columbia fisheries interests that at present Canada was endeavoring to conserve the Fraser River fisheries for the benefit of the Americans who were virtually exploiting them.
