don't

give children laxatives!

FOR years doctors have advised mothers to keep children regular with Quaker Oats. Now experts have discovered *why* Quaker Oats does this. They have found that most food lacks a certain regulatory vitamin Quaker Oats gives.

Children deprived of this vitamin lose appetite, become irritable—constipated. But when Quaker Oats containing this regulatory vitamin is added to their diet, they eat heartily and constipation and irritability disappear.

This vitamin is commonly called the "yeast vitamin" —and it has been found that a dish of Quaker Oats contains more of this element than 3 cakes of fresh yeast. And remember, Quaker Oats are also irradiated with Sunshine Vitamin "D".
