Coarse Gold Will Be Pumped Out of Sea at Moresby Island Bay

Interesting Mining Venture Being Started With Prospects of Profitable Results-Values Are Reported to be Quite Good

Indian Agent James Gillett of Massett and Peter Haan of Skidegate are organizing a new mining undertaking on the Queen Charlotte Islands by which coarse placer gold will be pumped from under salt water at a shallow depth from Sedgewick Bay, Moresby Island. The placer material is believed to be a drift from an island, the

ground on which has already been staked. Values are reported to be such as to ensure profitable opera-
