GENERAL APPROVAL HERE

General approval seems to have been registered locally rington. of the action of Great Britain, Canada's senior partner, in refusing to make debt payments to the United States un- Frizzell vs. Miss J. Edgcumbe and til a general discussion and revision of the whole debt Miss Molly Delaney. structure had taken place. Some of the European nations are not paying Great Britain or United States and the people of those countries are not taxed anything like as heavily as are the British. It is ridiculous to think that one little nation should carry the whole cost of the war. All must do their share.

BUSINESS IMPROVEMENT

Some Prince Rupert people complain that business has not improved with them, at least not enough to mention, while others say business is well on the up trend. A review |. of the financial situation arriving by mail states: "Canadian business on the whole has been rising from the de- GOLF QUEEN pression at about the same pace as it fell in the last stages of the decline."

The review says that recovery from depression is usually marked by sharp upward increases and occasional stability or minor declines which at the time are regarded Ada Mackenzie Defeated by Mrs. M. with apprehension. Business recovery to prosperity levels is seldom uninterrupted and the revival in Canada to date has been of that type. The pace in Canada has been unusually rapid but uneven and subject to interruptions.

The review points out that perhaps more than any other women's golf champion ended yessingle factor in bringing about improved conditions was terday when Mrs. M. McIntosh of the example of Great Britain in stabilizing government waterloo county Golf Club deand converting the national debt. Canadian and other

markets responded. Another report coming from Montreal shows that the nament. Power Corporation of Canada subsidiary concerns all report increased business. Included in the list was the Northern B. C. Power Company which reported a very considerable increase.

We have been told that we are too optimistic but we are in duty bound to tell these things and we hope to be able to be more optimistic before very long.
