TEXTILE WORKERS' STRIKE IN STATES IS ORDERED ENDED

Mill Workers Return to Their Jobs On Monday; Conference Successful

Heads of Union Issue Instructions Following Parley Held In Washington Today at President's Roosevelt's Invitation

WASHINGTON, D.C., Sept. 22: (CP)—The textile workers' strike, which has paralyzed the industry generally in the United States for the past few weeks, was ordered ended today by union officials and the workers will return to the mills on Monday. The order to discontinue the strike followed a conference today of textile union heads at the invitation of President Franklin D. Roosevelt to consider possibilities of ending the tie-up.

Object To Death Vessel For Entertainment

As thousands continue to crowd the beach at Asbury Park, N.J., to look at the hulk of the Morro Castle, wedged on a sand bar, bitter criticism of the plan of the city commission there to use the charred liner as an entertainment museum was started by women's organizations. Mrs. O.L.F. Mohr, president of the Asbury Park Women's club, declared, "This thing is too much of a tragedy to think of making an entertainment of it." A fee was being charged for a closer view of the boat from the pier, proceeds to be turned over to relatives of victims of the disaster.

Rainbow Comes Up From Behind to Snatch Win From Endeavour Today

British Boat Crosses Finish Line Flying Protest Flag, American Defender Having, Apparently, Violated Regulations Governing Overtaking Boats

NEWPORT, R.I., Sept. 22: (CP)—The American defender Rainbow snatched victory from the British challenger Endeavour in today's America's Cup race, making the series to date two wins each. The next race will take place on Monday and, with the sensational closeness of the contest to date, interest is becoming exceedingly keen.

The two yachts got away at 10:40 this morning with a fourteen knot breeze blowing. The course was triangular with the first ten miles a beat to windward. The Rainbow crossed the starting line three lengths ahead, working out to a 300 yard lead, but the Endeavour started overhauling the Rainbow and rounded the first mark in the lead by twenty-seven seconds.

Endeavour lost the advantage early in the next ten mile reach to the second turn which the Rainbow rounded with a lead of fifty-nine seconds, crossing the finish line one minute and sixteen seconds ahead of the challenger.

The Endeavour was flying the protest flag as she finished the race. Apparently, the Rainbow had passed the Endeavour to windward and failed to meet the latter's luff as required by the rules governing overtaking yachts.

Ernest Ringholm, well known local salmon troller, sails on the Prince Rupert tonight for Vancouver whence he will proceed to New York where he will embark October 3 aboard the steamer Gripsholm for Gothenburg enroute to his native home in O Amtervik, Sweden, for a visit. He expects to be away for several months, possibly until next summer.

TRAVELLING IN WINTER

Special Fares Being Offered Again By Railways

VANCOUVER, Sept. 22:—Following the practice of former years, numerous winter fares from all stations in British Columbia will be authorized this year by the Canadian Pacific and Canadian National Railways, according to an announcement made by the secretary of the Canadian Passenger Association, western lines.

These low excursion fares will be effective to Eastern Canada covering all points east of Fort William, Port Arthur and Armstrong, Ont.

Tickets to Eastern Canada will be on sale from December 1, 1934, to January 5, 1935, with a return limit of three months. For passengers going overseas, to the West Indies, Bermuda or on a world cruise, tickets will be on sale from November 15, 1934, to January 5, 1935 with a return limit of five months.

It is anticipated that the low fares, lengthy time limits and generous stopover privileges will encourage winter travel by providing a vacation at a low cost.

One Hundred Coal Miners Are Doomed

WREXHAM, Eng., Sept. 22: (CP)—Hope was abandoned at dusk tonight for one hundred coal miners who had been caught in an explosion and fire in Gresford Colliery. Rescuers had worked unsuccessfully all day to enter the pit but were unable to reach the miners. The miners were trapped nearly two miles from the mouth of the pit in which they were working. Two members of a rescue party were overcome and had to be carried from the mine but died on the surface as a result of the flames and flood of poisonous gas. Nearly three-quarters of the 400 miners working in the mine at the time of the explosion escaped. Heartrending scenes were enacted at the pit mouth as the women of the miners watched and waited throughout a heavy rain as the bodies were being brought out.

NO HALIBUT IN

No boats being in with catches, there was no sale of halibut on the local fish exchange this morning.

Fertile Farming Land In McBride District Gives Splendid Crops

Productivity is Wonderful and Failure Has Not Been Known in Twenty Years—Town, Bound to be Important Some Day, Cries For Highway Connection

(By H. F. Pullen)

McBRIDE, Sept. 22:—This town is located in the centre of a wonderfully fertile valley with thousands of acres of land still available for settlement. All that is needed is connection by highway with the outside world to cause a great influx of settlers, according to leading citizens here. They declare that a crop failure has never been known in the valley. This year there is a large exportable surplus of hay and grain, and potatoes are excellent. Very few parts of Canada can show such results as the farmers of the McBride district have had.

McBride is on the direct route of the highway between Prince Rupert and Jasper but the construction of that highway has been so slow that the people are tired of waiting and say that their only hope of immediate relief is to connect up the unfinished sections of the highway leading to Kamloops, a total distance of from 35 to 40 miles of comparatively easy construction which would enable them to get to the outside by motor car but, what is more important still, would enable settlers to come in and bring their stock and equipment with them. This they consider is the one thing necessary to their perfect happiness.

McBride people would also like to have the Mount Robson provincial park handed over to the Dominion government to administer in order that the federal government may build a highway through it to the Alberta boundary. They think that the park is an encumbrance rather than an asset to the province and that any benefits accruing to the province would be as great as ever if the Dominion owned the park just as they own Jasper Park. This is their viewpoint and is worthy of consideration.

Productive Farms

In regard to the productiveness of the farms in this district I have seen a few of them and can say I have seldom seen better crops anywhere. I visited among other places the Dominion Government Illustration Station conducted by J. T. Oakley near here. Mr. Oakley has farmed there for twenty years and confirms the statement that there has not been a crop failure in that time. He says that occasionally the elements are against them but they always have a crop. Last year the potatoes were a failure but they had grain and hay. Oats yield 80 to 90 bushels to the acre and wheat 35 (Continued on Page Four)

PRICE FIXING BY N. R. A. GIVEN UP

WASHINGTON, D.C., Sept. 21:—The principle of price fixing has been abandoned by the National Recovery Act administration, it is announced by Secretary of Commerce Roper, although minimum prices set by the government in some industries will still remain in effect.

SEEKS AID FOR BLIND

Major W. H. Watts of Vancouver Is Visitor in City For Ten Days

Making a tour of the district to stimulate interest in the work of the Canadian Institute for the Blind, Major W. H. Watts of Vancouver is a visitor in Prince Rupert. He arrived from Smithers on Thursday night's train and expects to be here for about ten days before proceeding to Anxox.

Major Watts, who is accompanied by Mrs. B. F. Harmer, spoke before the children of Booth Memorial School yesterday, and will be heard in the First United Church tomorrow morning and in First Presbyterian Church in the evening and on Monday evening will speak before a meeting of women in the I. O. O. F. Hall. Major Watts will speak briefly and, with Mrs. D. C. Stuart, regent of Municipal Chapter presiding, the program will also include vocal solos by Mrs. Ernest Anderson and Dr. R. G. Large as well as piano selections by Major Watts.

Although 76 years of age and suffering the incapacities of blindness as a result of his service in the Great War, Major Watts is very alert and carries on his office work with an ordinary typewriter and also by the Braille and Moore systems for the blind.

Prior to his misfortune the Major was a music teacher and he plays the piano with great skill that is not marred by his disability.

Woman Admits Arson Charge

In View of Physical Condition, Mrs. Ida Pearl Hanson of Nadina Gets Suspended Sentence

Divisional headquarters of the provincial police here have been advised of a case in County Court at Smithers on Wednesday of this week in which Mrs. Ida Pearl Hanson of Nadina River was given a year's suspended sentence on a charge of arson by Judge W. E. Fisher. The woman pleaded guilty but, in view of her physical condition, was allowed to go on suspended sentence. Mrs. Hanson admitted having set fire to an old homestead dwelling and store which was owned by her husband, who is dead, on June 19 just before the insurance expired.
