INDUSTRIAL LEGISLATION

Everyone will agree that there is great need of legislation which will prevent strikes. The chief difficulty has been in the past that while pressure can be brought to bear on employers to make them carry out the provisions of the law it is much more difficult to deal with hundreds or possibly thousands of employees. If they do not wish to work it is pretty difficult to say they shall do so.

The claim of the workers in regard to similar legislation is that employers are allowed to evade the law and by means of political or other pressure can escape the penalties.

If Mr. Pearson's new scheme for settling disputes is effective on both sides it will be a step in the right direction. Everyone hopes it will. Strikes are of little benefit to employers or employees. Often they are brought about by people who are interested in keeping the country in a state of turmoil but they have to have at least an appearance of right or they cannot succeed. What is needed now is a period of production in order that the country may again become prosperous.

A BRITISH COLUMBIA PUBLICATION

One of the most interesting and useful publications for a gardener residing in British Columbia is "The Garden Beautiful," a monthly periodical issued from the presses of the Wrigley Directories, Vancouver. It deals chiefly with conditions as they exist in this province and for that reason is particularly interesting to people living in this district. It is nicely illustrated and contains a lot of advertising of particular interest to flower lovers. We recommend local people to get this journal.

SUPPLY OF RADIUM

Canada is now producing its own radium. The ore is being mined at Great Bear Lake, shipped to the railway by airplane and taken to Port Hope, Ont., where the radium is refined and distributed. The province of Ontario has already made some purchases and the supply will be sufficient for the whole Dominion and possibly for the Empire soon. Uranium ore produced at the same time as radium is shipped to Great Britain. The ore contains chiefly silver with radium and uranium as bi-products.

Anyox Girls Win By Single Basket Over Prince Rupert In Exciting Hoop Encounter

ANYOX, Feb. 24.—The Anyox all star girls' basketball team last night won the first of a two-game series from the Prince Rupert girl visitors by a score of 14 to 12. The game was close and keenly contested throughout. Play was clean and fast and there was hard checking on both sides. The teams were evenly matched and it was anybody's game right from start to finish.

The Prince Rupert girls, unaccustomed to the strange, large hall, were unlucky in numerous shots but, at that, the score at half time was even—eight all.

Early in the second half, the Anyox girls took a four-point lead which they held up to a few minutes before the end. Then Prince Rupert scored another basket but were unable to overcome the two-point lead.

Norton Youngs was a capable referee. The hall was packed with spectators.

The second game will be played tonight and it is expected to be a hard, close contest.

A big dance followed last night's game.

The Prince Rupert girls are having a wonderful time.

FISHERMEN FAREWELL

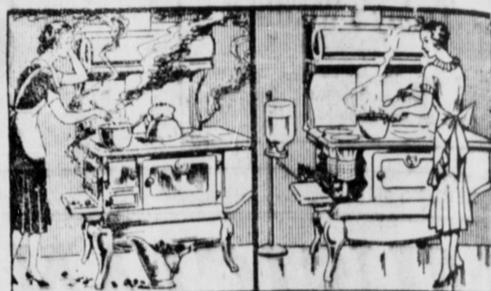

Between Five and Six Hundred Persons Present at Dance in Moose Hall Last Night

Between five and six hundred persons were in attendance at the dance staged last night in the Moose Hall under the joint auspices of the Moose Lodge, Canadian Legion, Sons of Norway and Lief Erikson Society as a farewell to the

men of the Prince Rupert halibut fishing fleet on the eve of their departure for the season's work on the fishing grounds. It was a most enjoyable affair for all present. Excellent music was furnished by Mrs. J. S. Black's Orchestra and at midnight delicious refreshments were served.

W. H. Tobey, C.N.R. divisional superintendent, and Peter Lakie, district freight and passenger agent, left on yesterday afternoon's train for a trip to various points along the line between here and Jasper Park on official business.

A CLEANER KITCHEN and A COSIER HOME with "SILENT GLOW"

Take a good look at these two pictures—the stove is the same in both, but what a difference in cleanliness and convenience! Which is the happier woman? A Silent Glow Oil Burner installed in your present range, heater or furnace saves labour and is positively clean, silent, free from smoke, soot and odour. It gives a steady, even heat which you can adjust or regulate by the turn of a valve. No labour, no watching and absolutely safe. Burns cheap fuel oil. Each burner is guaranteed in writing for five years. See the Silent Glow before you buy.

IT LIGHTS QUICKER—GIVES MORE HEAT—BURNS LESS OIL AND MORE AIR PER UNIT OF HEAT GENERATED.

ELKS' DANCE WAS NOVEL

Seventy-Five Couples Crowded Hall Last Night—Mock Radio Broadcast

Another very successful dance was staged last night by the local Elks' Lodge, about seventy-five couples filling the Home to capacity. A mock radio broadcast was put on during the evening, this proving most entertaining to all. Sam Joy, who was master of ceremonies for the evening, presided at the "mike" and the stage was skillfully arranged to represent a broadcasting studio. Each person present was given a slip bearing the name of a celebrity whom he or she was to represent during the evening.

The Grand March was led by Past Exalted Ruler George Mitchell and Miss Jean Grieve, the latter representing Janet Gaynor, the popular movie actress, the other couples falling in as their assumed names were called.

Refreshments were served at midnight after which community singing was enjoyed with all present taking part.

With Charlie Balagno and his orchestra providing splendid music, the dancing continued in full swing until 2 a.m.

The affair was in charge of the Elks' house committee.
