The terrain down the Omineca River is exceltf lent for road building. The construction of a first class highway from Fort St. James to Finlay Forks would undoubtedly involve a considerable expenditure but it would pay. Not only would there be work for those on road construction but the payrolls in the northern camps would be doubled and trebled in very short time. The yield to the crown in gas tax, two percent mineral tax and income tax would mount from year to year. Unemployment would be replaced by gainful occupation. Their return home was marked by a wide detour by which they passed through the Panama Canal, stopping off enroute at San Francisco and in Southern British Columbia. They reported a very interesting nd enjoyable journey.

Two special constables were on duty here on Hallowe'en night to dampen the ardor of those youthful enthusiasts who not only celebrate the occasion but often do real damage to property.

There have been several teas in honor of Mrs. W. H. Burnett who is expecting to leave Terrace shortly to reside at Jasper, at which place Mr. Burnett has purchased a busimore to rehabilitate this province in
