If we look through the microscope disbanded. at a small bit of mineral soil mixed with a drop of cold boiled water there appears a picture of a rock strewn country in miniature with vegetation scattered here, there and everywhere, as though it had been devastated by a cyclone. The rock is the mineral part of the soil and the vegetation is from the dead plants that have grown on it from time immemorial, and gives to the soil its characteristic color. Some of the vegetation has been torn to shreds—the result of the depredations of the microbial population, and some still retains the shape of the surface.

## Crisis Reached

Trouble over the Swastika broke into public notice when a group of about 100 youths, affirming alliance with the swastika-flouting organization, paraded in the east end singing an anti-Jewish song. A self leader of the movement and A large group of Jewish young men called a meeting which was dismarched in protest. A dance at a persed by police. Peterborough and club-house was halted by police and Orillia were other points to report both groups sent home.

A few days later police were again hastily summoned when the rival groups again paraded and Swastika emblems were torn from a number of boys. The League for portions of the plants growing on the Defence of Jewish Rights protested bitterly to the city hall and By a fine adjustment of the fo- a conference was called by Mayor cus of the microscope the subvisible W.
