Striking Ideas in Regard to Future Developments Of North in Commerce, Transportation and, Naval Activity Voiced by Clive Planta M.L.A. Before Gyro Club

The city of Prince Rupert is paced in a position of extreme responsibility in the light of events that are to come. Crown Attorney Albert Judd was ... Prince Rupert is in the future to become the watch dog arrested here yesterday on four of the British Empire in the Pacific arena of trade. . . . For charges of theft aggregating \$5700 us to build the Yukon Alaska highway with the full knowin connection with alleged conver- ledge that it is required for a strategic purpose by the United States of America would be

to commit an act that would in future inevitably embroil us in international differences. . . I would say build and maintain the Yukon Alaska Highway, allowing the United States every peace-time privilege, providing the panhandle of Alaska is ceded to British Columbia as a concession. . . . If, in connection with the Yukon Alaska Highway, the Dominion government and the provincial governments can pledge Canada for some \$20,000,000, they can better justify providing the funds with which to complete highway transportation east and west from Prince Rupert to its na-

tural hinterland.

Such were some of the striking ideas expressed by Clive Planta, M. L. A. for Peace River, in addressing members of the Prince Rupert Gyro Club and a number of guests at luncheon today. Mr. Planta's address proved to be one of unusual interest. He envisioned the important part that Prince Rupert was bound to play in future developarena with respect to commerce, LOAN GOING activity. Mr. Planta gave considerable attention to the proposed Yukon Alaska highway, giving some interesting views in relation to same. He referred briefly to the Pa- Subscriptions Started With Rush cific Coast rail outlet problem of the Peace River in regard to which he has placed himself unequivocally on record as being in favor of vision of highway transportation to three Canadian companies alone the winter.

# ASPEN LOGS

Ship Coming Here Next Week to Load Matchwood Timber For Orient

An extra freight train came in late vesterday afternoon from Fraser Lake, bringing twentyfour earloads of white aspen logs being shipped by M. M. Connelly to the Orient for use in manufacture of matchwood. Six carloads had come in previously and twelve more are expected before the end of the week, between forty and fifty cars in all going with the present consignment.

The Ocean Shipping Co.'s freighter City of Vancouver is due here next week to load the logs for the Orient.
