A boy was acquitted on a charge of murder after killing peace concluded a another lad at Powell River recently. He was declared to helpful talk. be insane. He was the son of an insane parent, according to the evidence given at the trial.

That is one case where sterilization would have been beneficial in preventing the birth of a child of that kind and thus saving the life of another child. Also it would have saved the country the horror and cost of a terrible tragedy. The perpetuation of insanity should be prevented.

#### MANY COMPLIMENTS RECEIVED

Many compliments have been received by the Daily Islands this week, says that the Italy. The philosophy of action of News on their rather hurriedly prepared special number people there have shown very great commemorating the opening of the new Canadian Legion building this week. The number contained articles dealing Rajaut of "The Dunes" at Tiell with practically all the activities of the local organization wishes to join the Prince Rupert and included cards of congratulation from advertisers and Horticultural Association and sent public men.

Inspiring Empire Day Address Delivered Before High School Pupils by H. N. Brocklesby

"Mud" was the odd title chosen by H. N. Brocklesby, assistant direc-Experimental Station, for a talk tion since 1789. delivered before pupils of King Edward High School at the auditorium of Booth Memorial School in observance of Empire Day on Wednesday afternoon.

The most important thing in the lire 81/2 cents. Empire, declared Mr. Brocklesby, was youth. Youth set out in life full of enthusiasm, energy and idealism. By middle age ninety percent had lost these attributes. Barriers and pitfalls which one might term Denmark, etc., while France and 'Mud" caused the falling off in determination and accomplishment. stuffs.

Some settlers were content with muddy roads. Their transportation was hampered and their activities hindered. Other more enlightene settlers constructed corduroy roads so mud was no hindrance to them.

Mr. Brocklesby discussed what he believed the constitution of the Mud" which held back and dampened the average life. Youthful ims were usually too idealistic. non-attainment causing early dis- confinement, medical assistance couragement. In other cases, men- and hospital free, plus a cash bonus tal laziness would not allow original of 300 lire. Besides compensation and clear thinking. "Education" for injury the worker gets half day's might be inadequate and poorly di- pay when sick and medical and gested. Then, too, there was mental hospital treatment free. Tubercuand physical cowardice, the lack of losis is treated in the magnificent courage to face public opinion defence of a principle.

#### Building the Road

These constituting the mud, what then could be used for a corduroy road? First came education which did not necessarily mean high school or university education although these helped. One half to every community goes to uplift the one hour a day spent on the fol- worker. Recreation, night schools, lowing subjects would enlarge one's sports, lectures, professional and outlook and give one that tolerant trade education are responsible for attitude so necessary for the solu- a new moral standard of the mastion of the world's afafirs: physical ses. ### Gardening In Prince Rupert

Mrs. J. T. Mandy, who arrived home from the Queen Charlotte interest in the local effort to make the amount of the membership fee to the secretary. She has always been keen on gardening.

On the afternoon of the holiday With the steamer Prince Rupert I made a call on F. J. Fulelr and now away to commence service for found him as usual in his garden, the season after having completed He is one of those men who make amount overhaul, work was started intimate friends of his flowers. He at the local dry dock today in overknows them all individually, tells hauling and cleaning up the steatheir names and all about them and mer Prince Charles which has been enjoys being with them. He has tied up at the yard for the past over seventy rose trees and features couple of years. The work being delphiniums, peonies and Canter- carried out for the present will be bury bells. He shows a very fine inside ship and above the water pansy that measures three and a line. Later the vessel will be taken half inches one way and three and on to the pontoons for hull work. a quarter inches the other, beautifully marked and colored. Also he has one of the new Arkwright ruby violas in bloom. It is fragrant as an English violet.

Part of Mr. Fuller's place is being cultivated by Mr. and Mrs. Lance Styles who have a very delightful little garden at the back, gay with orange and mauve chieranthus (Siberian Wallflower) and all sorts of seasonable flowers including some fine pansies. Not many places have flowers both front and back and of such splendid quality as those found at Mr. Fuller s -- H. F. P.

GROPING IN DARK

Editor, Daily News:-

Your genial correspondent Greenwood, a very appropriate name for a critic of Fascism, is groping in the dark, nibbling on the margins of tor of the Prince Rupert Fisheries the greatest constructive revolu-

Before making comparisons about wages, lire and dollars he had better look up the Italian exchange. He would have found that his dollar is only worth 60 cents and the

Comparing Britain's wages with Continental Europe's is futile. Britain's orchard is along the Mediterranean, her cattle ranch in Australia and Argentine, her dairy in Italy are self sufficient in food-

Here are some Fascists facts:

1. Italy has the most advanced social legislation in the world, 71/2% of all wages paid going to the National Institute for Social Insurance whose capital is now over 10.-000,000,000 lire. Five percent is the contribution of capital and 21/2% of labor. The worker gets his pension at 65. Maternity is assisted with six weeks of rest before and after in new solariums and sanatoriums. Unemployment gets 120 days of assistance per year.

2. The Balilla organization takes care of all needy children and sends them to the mountain and sea shore during the summer months.

3. The after work organization in science, biological sciences, history, titled to two weeks of holiday with geography and social science. Se- pay. The discharge of an old emcond there should be a widening ployee must be compensated with outlook given a philosophical atti- three months of pay for every year tude which fostered a courage to of service rendered.
