As a result of the rise in the price of silver the output is increasing slightly in Canada but in Mexico the increase leadership in the standing of the was the winner in a game of musical is nearly twenty-three percent. POSITION OF CANADA

Roger Babson, the statistician, says: "Canada has her problems. Some of them are serious but they are the problems of growth and development, not the problems of age and decay. Her vigorous healthy condition is being proved teams in Elks' City Bowling League, by her remarkable come-back in recovery. Her banking store at once. system, that was such a bulwark during depression, came] through with flying colors and all the world turns to it with admiration."

The same authority suggests that Canada will benefit by what is of value in the Roosevelt New Deal while avoiding that which is worthless. The United States is making the huge costly experiments from which Canada will benefit.

GERRY WOULD BE HANGED

Ludwig Lewisohn has just returned to the United States from Europe and he mentions the freedom enjoyed on this continent compared with what they have on the other side of the Atlantic. A writer in the Victoria Times, commenting on Mr. Lewisolm's statements in regard to people criticizing the government, says:

"What no one here realizes is that in Europe they wouldn't be allowed to speak like this at all. If they did, they would be locked up. If you were to breathe in Europe the sentiments which you daily utter about the Bennett Government, for example, you would find yourself on a diet of bread and water. Mr. Woodsworth probably would be assassinated. The local branch of the C. C. F. would be liquidated. The leaders of the youth movement would disappear. Mr. Gerry McGeer would be hanged. I would form an interesting appendage to a lamp post. You couldn't say a word about the Pattullo Government. Think twice before you throw these priceless privileges away."

The committee hoped to have a meeting next week on the matter, Dance at Naval
