WHAT RECIPROCITY WILL DO

In addition to reducing the cost of living, opening up great markets for our lumber, our fish and our minerals, reciprocity will double the present population of Prince Rupert. This statement is made on the authority of J. P. Todd of Seattle, whom the Seattle Daily Times declares is "the best posted man on fishing matters in the Northwest."

Not that J. P. Todd is a friend of reciprocity. J. P. Todd is allied to those "interests" who prosper under a tariff. His men have been accustomed to go in their boats out to the Canadian halibut banks and load up. The Canadian fishermen could not come into the market. There was a duty of a cent a pound on the fish caught by a Canadian fisherman. This corralled the market for J. P. Todd and the Seattle fishermen, leaving the Canadian fishermen out in the cold.

This is what J. P. Todd says in an interview in the Seattle Daily Times:

"Under the reciprocity bill fish are admitted free of duty. If this measure carries, the halibut fleet that makes Seattle its headquarters will move to Prince Rupert as soon as the Grand Trunk Pacific is completed to the Coast." "The loss to Seattle will be whatever money or business 6,000 fishermen involve."

What money and business do six thousand fishermen involve?

In the first place there are the wives and families of the married fishermen. Six thousand fishermen will have at least six thousand dependents; probably twice that amount.

Six thousand fishermen will need between them several thousand homes. Those homes will have to be built by Prince Rupert carpenters. They will have to be built on lots at present held by lot owners in this city.

Six thousand fishermen and their families will need food, they will need clothes, they will bring abundant wants with them, all of which the merchants of Prince Rupert will have to satisfy.

Six thousand fishermen will need boats and repairs. The trade of a fleet of six thousand fishermen in Prince Rupert will keep a shipyard and several engine works busy.

J. P. Todd "the best posted man on fishing matters in the Northwest" states that if reciprocity carries six thousand fishermen and all the money and business involved with them will move from Seattle to Prince Rupert.

Every voter in Prince Rupert without regard to the usual considerations of party should vote for the reciprocity candidate when the time comes.

Six thousand fishermen with all the money and business they involve is just what Prince Rupert needs.

HOW RECIPROCITY AFFECTS THE LUMBER INDUSTRY OF BRITISH COLUMBIA

The lumber industry is another of the great industries of British Columbia which will be affected by the adoption of the reciprocity agreement. The lumber industry, like the coal industry, will receive an enormous impetus under reciprocity.

Practically the whole face of British Columbia, with the exception of a few cleared valleys, is covered with forests. The spectacle of forest covered mountains which greets the eye of every Prince Rupert which ever way he turns, is the spectacle which greets the prospector and traveller all over the country. The whole of the inland passage from Vancouver to Prince Rupert is practically lined with forests which stretch as far as the eye can see, and for hundreds of miles beyond.

Much of this land is staked and leased by lumbermen and speculators, but very little effort is made to cut the timber. The reason is that there is not a sufficient market. Our forest wealth must remain potential wealth merely. For lack of a sufficient market it cannot be turned into money or into other commodities.

A few hundred miles south of Vancouver is a great country almost devoid of trees. Every foot of lumber required there has to be imported. The logical thing to do would be to import it from British Columbia where our forests are choked with the uncut growth. But the United States tariff imposes a tax of \$1.25 per thousand on British Columbia lumber to keep British Columbia lumber out of the markets of the South Pacific States.

Billions of feet of lumber are taken to San Pedro and San Diego from Washington and Oregon, but not from British Columbia.

What will reciprocity do for the lumber industry of British Columbia?

Reciprocity will remove the tax of \$1.25 per thousand from British Columbia rough lumber.

Reciprocity will open the markets of the Southern Pacific States to the lumber of British Columbia.

Reciprocity will turn our forests into wealth production, and give employment to many thousands of men.

Reciprocity will necessitate the erection of many sawmills throughout the province.

Reciprocity will make trade for lines of vessels carrying lumber from British Columbia to the ports of the lower coast.

Reciprocity will open the market of the Pacific States immediately. In two years' time the Panama Canal will be open to the vessels of the world. Reciprocity plus the Panama Canal, in two years' time will open the markets of every state on the Atlantic coast from Texas to Maine to the lumber of British Columbia.

No wonder the lumbermen of British Columbia want reciprocity. Reciprocity means the dawn of a new and brighter day in British Columbia's commercial history.

SUIVEZ LE PANACHE BLANC

Sir Wilfrid Laurier, en arrivant a Montreal de la Coronation, dans un discours qui fut marque d'applaudissements spontanés et termine avec les fanfares eclaterent et bruyantes, notre chef a conclu: "Messieurs les electeurs, j'arrive devant vous plein de courage et de zele pour defendre la cause du peuple canadien tout entier. Je n'ai plus longtemps a vivre mais je soutiendrai la lutte jusqu'au bout. Quand je ne serai plus, ce sera a mes jeunes amis d'accomplir ma tache. Je dis aux vieux comme aux jeunes ce que disait Henri IV: "SUIVEZ MON PANACHE BLANC, VOUS LE TROUVEREZ TOUJOURS SUR LE CHEMIN DE L'HONNEUR ET DE LA GLOIRE." "SUIVEZ MON PANACHE BLANC: C'EST MA CHEVELURE DE 69 ANS."

NEW ESTABLISHMENT FOR FUNERAL UNDERTAKING

Messrs. Hayner Bros., to Build Chapel, Offices and Embalming Rooms on Grenville Court.—Buildings in Mission Style with Every Modern Device.

Messrs. Hayner Brothers are about to start at once on the erection of a new and entirely up-to-date undertaking establishment on one of the fan shaped lots on Grenville Court adjoining the Salvation Army Citadel. The ground space measures 28 ft. x 50 ft. x 100 ft., and will allow of the erection of a very fine substantial building which is just what the Messrs Hayner have planned. The ground has been leased for a considerable term and the building will be of a permanent type.

Elegantly Equipped

Chapel for funeral services, offices, and embalming rooms, all spacious and conveniently arranged are included in the plans. Inside the furnishings, fittings, and upholstery will be very highly finished and in the very best of good taste, quiet and dignified. Outside the Grenville Court frontage of the building is to be designed in the well known simple Mission Style, which is still rich and substantial looking without being vulgar or pretentious. Thus

the building will exactly meet its purpose. Funeral obsequies conducted there and the last sad services rendered the dead will be carried out in quiet dignity without ostentation.

Experienced Undertakers

Adding to their present equipment many of the very latest appliances which have brought to perfection the art of embalming on this continent, Messrs. Hayner Brothers, who have had thorough training and experience in this class of service will be in a position to attend to undertaking work as fittingly as any of the firms in the older centres of Canada. The chapel attached to their offices will be secluded and quiet. While in the earlier days of Prince Rupert there was no lack of dignity about funeral services held in a little rough shack, the growth of the city has demanded development in line with that of all other cities, and in this department Messrs. Hayner Brothers lead the way.

NEW WESTMINSTER NOW WANTS A SNIFF YACHT

Mayor, Admiral, Commodore, Commander, Harbor Staff and Aldermanic Lords of the Admiralty All Delighted at Implied Compliment to Design of Our Odoriferous Dreadnaught.

"The corporation of New Westminster invites tenders for the construction of a garbage scow for the health department. Plans, specifications and conditions of contract can be obtained from the office of the engineer."

With pardonable pride we glance at the above advt. which appears in the Vancouver Province. Imagination is the sincerest form of flattery. Just fancy the old established city of New Westminster, with all its civic experience being indebted to young Prince Rupert for a hint in municipal economics, and a valuable idea in the noble art of naval architecture! No wonder the Mayor was gratified. No wonder he thought of wiring to the Daily News to thank that enterprising newspaper for letting New Westminster and the world know about Prince Rupert's performed pride, The Civic Sniff Yacht. New Westminster will be glad to hear that the Pioneer Sniff Yacht of Northern B. C. is still in great shape—still going strong as ever. With her High Admiral, her Commodore, her Commander, her harbor staff, and over all the Civic Lords of the Admiralty

including the Mayor she rides the waves more proudly than any Olympic. Equipped with wireless apparatus, noiseless fog horn, and powerful gasoline engine, rudderless steering gear, and hourless schedule, some of her admirers are hoping that by and by she may achieve an odorless cargo.
