DAILY EDITION.

TWO PICTURES-WHAT IS AND WHAT WILL BE

In the columns of a Prince Rupert newspaper which is opposing reciprocity appears the following despatch:

Victoria, Aug. 17.—Wholesale violation of the international fisheries regulations on the west coast of Vancouver island, near the Swiftsure bank, is alleged. It is stated that 225 gasoline launches from various American ports are engaged in purse seining, their catches being collected by a brigantine, which carries a cold storage plant.

The fish are then taken into American ports, including Seattle and Port Townsend, for distribution throughout the northwest.

That is a picture of what is.

It is of no use to revile the fish-poachers of the United States. The whole situation is the outcome of the present tariff situation which, forbids the Canadian fishermen to carry Canadian fish into These stores are pioneering the north, thence 20 chains west, thence 20 any of the American States under a penalty of a cent a pound.

The people of the United States must have fish. We have fish swarming on our banks but are unable to find a market for them.

There is only one way by which the American people can defeat the tariff against Canadian fish. They steal the fish, and carry it into Seattle on their own boats free of duty.

Under different circumstances we might do the same.

Under reciprocity all this will be changed. The removal of the cent a pound duty on fresh fish will open the markets of the United States to honest Canadian fish, honestly caught by Canadian fishermen on our own banks. Those two hundred and twenty-five American gasoline craft which the anti-reciprocity organ tells of, will be replaced by two hundred and twenty-five Canadian gasoline craft. The money received from the sale of their catches will go to increase the wealth of the British Columbian perople.

Yesterday in the series of progress stories of the district which are appearing exclusively in the Daily News, we told of the organisation of a \$200,000 company to erect another cold storage plant in Prince Rupert. On the previous day we told of the intention of Mr. John Moore and his associates to erect a large paper mill in the vicinity of Prince Rupert if reciprocity is adopted by the people of Canada a the forthcoming election.

These are indications of the era of progress and development which awaits Prince Rupert under reciprocity.

In the News today is another exclusive news story, telling about the new quarter million cold storage plant to be built at Claxton. News reporter who visited Claxton was informed that the object of this plant is to ship fresh fish in cold storage to the markets of the Southern States, in similar fashion to the present cold storage plant at Claxton which is shipping to the British market.

There is no tax against fish in Great Britain. There will be none in the United States when reciprocity is consummated. It is the expectation that Sir Wilfrid Laurier will sweep the country from the ommencement, containing 320 acres more or less. Atlantic to the Pacific that has resulted in Mackenzie and Mann deciding to erect the new cold storage plant at Claxton.

Reciprocity will mean development and prosperity for the whole of British Columbia.
