

BIG DOINGS AT SWANSON BAY

Company Owning Plant Have Spent Large Sums on New Machinery—Going to Start Again in Big Way—Pulp Mill to be Worked Again.

For some time past there has not been any great rush at the lumber mill and pulp works down at Swanson Bay, but things have altered. The company now owning the plant there are making preparations for big business. New machinery, costing several thousand of dollars has been installed, new buildings have been erected and in a few days everything will be in shape for handling big quantities of lumber and pulp.

This information was learned by a member of the staff of the Daily News who was at Swanson Bay.

Last Sunday night two of the company's foremen left for Vancouver to get two crews of men, one crew to work in the saw mills and one crew to run the pulp mill.

Gangs of men are already cutting timber in the company's own limits, quite near to the works.

It is understood that most of the lumber will be shipped to Great Britain and Australia, while the manufactured pulp will find a ready market in the United States. Industrially Swanson Bay will be good for some long time to come.

CUT ABOUT THE HEAD

Peter Popaz, Montenegrin Laborer, Fell Foul of Derrick

At McInnis and Kelly's First avenue grading contract yesterday afternoon a Montenegrin laborer named Peter Popaz got entangled in a falling derrick which gave way under a heavy rock lift. Only the chains dragged him down or his injuries might have been serious. As it was he was cut about the forehead over the eye, and suffered a severe scalp wound. The injured man was hurried along to Dr. Kergin's where his wounds were dressed. He was able to be around this afternoon.

Robbing the Hen Roost

In the small hours last night a flutter in his chicken ranch near his Centre street residence aroused Arthur Little. Robbed in his night attire, he sallied forth armed with a long piece of pipe to beat off the marauders. Alas, he was a second too late. Down the hill in the darkness the dark figures of a man and boy sped like the wind, and today the hen roost mourns an absent one, a sturdy cockerel, the pride of the poultry farm. Police on the job.

ECHOES INSTEAD OF COMPASS

Lost Steamer Balcarras Wrecked in Agammemnon Channel was Navigated by Noise. Revealed at Investigation Today.

(Canadian Press Despatch) Vancouver, Aug. 19.—A marine investigation into the loss of the steamer Balcarras formerly owned by the Sechart Navigation Company and which was wrecked in Agammemnon Channel on September 17 last, was held here today.

Evidence adduced showed that the vessel was navigated chiefly by means of echoes from the constant blasts of the whistle instead of by the compass. The instrument was a spirit compass of Ritchie pattern and was sluggish in acting. A new one was provided but as it would not fit the binnacle it was laid away.

Captain Fulton testified that there was no light on the float at Dempsey's Camp as usual and that this was in his opinion what caused the disaster which occurred at four a.m. in the midst of fog and heavy smoke.

PREMIER'S PEOPLE

Party of Ladies Making the Round Trip by S.S. Prince George.

Several ladies arrived in Prince Rupert by the G. T. P. S.S. Prince George this morning, the party including relatives of Premier McBride. The ladies are making the round trip on the Prince George.

Useful Wireless

Notified by wireless that a deck passenger on the Prince George had missed his blankets, and fancied they had been stolen, Chief Owens of the Provincial Police, met the boat. On investigation, however, he came to the conclusion that the blankets had been lost, not stolen.

Weather and Shipping

While clear weather is reported from the Islands and has prevailed for days past in Prince Rupert district, wireless reports from down below points tell of clouds and fog. For the most part smooth seas prevail. The S.S. Prince Rupert was spoken last night passing Bella Bella southbound.

Worth Seeing

No one should miss the really excellent fire brigade drama exhibited in lifelike moving pictures at the Empress Theatre last night, and to be repeated tonight. See the famous fire scene. It is vividly realistic.
