GOVERNMENT ENDORSED

The Fascist government of Italy has been endorsed by the electors almost unanimously. The election was not like ours. It was the first held under the new plan for a real Fascist administration. As a matter of fact the trial of Fascism commences now for since the Black Shirts seized the power in Italy the country has been in a state of transition with Mussolini as dictator most of the time. During that period the Duce has been laying his plans for the perpetuation of the new system and the election this week was the consummation of the arrangement whereby the old parliamnt has been abolished and the new initiated.

The whole world will watch the working of the new Italian system for today the world is looking for something BLUE SHIRTS new in the matter of administration, the old having proved unsatisfactory. That is why people are interested in the Russian experiment, the Italian experiment, the Austrian situation, the plans of the C. C. F. and the Douglas system. They feel that something will be done soon and they are anxious that any move made shall be in the right direction.

GETTING RESULTS

Already the Pattullo policy is achieving results. Premier Bennett has recognized the seriousness of the situation and, as announced in this paper yesterday, has asked the western premiers to meet him in conference next week. Premier Pattullo will go and, doubtless, he will take with him the authority which he has asked the Legislature to give him in dealing with the affairs of the province. His hand will be strengthened a hundred times by the knowledge that any action he takes is final and cannot be nullified or modified. He will be the only man in the group who will be in a position to take immediate action although there is no reason to believe the federal parliament would refuse to back up Mr. Bennett in any action he may take. It should now be possible to talk frankly with the aim of getting results.
