Governor of California Declines to Have National Guardsmen Removed Until All Danger is Over—Washington Issues Authority For Deportation of All Foreign Agitators

CLASH AT SEATTLE

SEATTLE, July 20: (CP)—Seattle police, using long range tear gas bombs, routed longshore pickets from Piers 40 and 41 where a number of ships were loading and discharging today. Police and rioters came to grips but gas fumes won the battle. A score or more of police were given emergency treatment for gas and several went to hospital. There was no estimate of the casualties among the strikers. As a result of disagreement over the handling of the situation, Mayor Smith "fired" Chief of Police Smith and took active charge himself.

SAN FRANCISCO, July 20: (CP)—The industrial tie-up which has been paralyzing Pacific Coast ports of the United States with increasing intensity since the longshoremen's strike commenced a couple of months ago moved further towards dissolution yesterday afternoon when the general strike committee at a conference voted 191 to 174 to immediately call off the sympathetic strikes. The longshoremen's strike, however, remains unchanged although the general expectation is now that a settlement will probably be speedily reached through arbitration under direction of General Hugh S. Johnson, N. R. A. administrator.

While California ports had another quiet day yesterday in view of prospects of an early settlement of the whole strike situation, Governor Merriam, in a statement from Sacramento, announced that he would not call for the withdrawal of National Guards from San Francisco until he was completely satisfied that all danger of anything in the way of strike demonstrations or disorders had been removed.

With the exception of the longshoremen's walk-out, the strike situation in the trans-Bay area was almost normal today. Union labor in Oakland and San Francisco called off the general strike and more than eighty thousand men returned to work.

At Portland, however, threat of a general strike was made if Governor Meier orders the National Guard mobilized into the Portland waterfront district.

Report Agitators

WASHINGTON, D.C., July 20:—The Department of Justice yesterday transmitted authority to the state authorities of California, Oregon and Washington to place under arrest with a view to deportation all Communists and agitators who are not American citizens. It was reported here that 900 men of Communist tendencies had already been rounded up in San Francisco for deportation.

Berlin Subdued As Nazi Terror Stalks Streets

The streets of Berlin swarmed in a fearsome quiet, are shown in this remarkable radio photo of the vicinity of Potsdamer Platz. Two policemen, their rifles slung over their shoulders, patrol the district where the shadow of Nazi terror has subdued the usual workaday activities. Hermann Goering St. named after Chancellor Hitler's "strong man", stretches away to the right.

Dr. Fred Kergin Was Pleased With Russia and Liked the People, He Tells Rotary Club in Address

Two years ago Dr. Fred G. Kergin made a trip through a part of Russia and yesterday, in an address to the Rotary Club at its luncheon, he told of his impressions. He went there prejudiced against the country but he found that he rather liked it. The Russian people were struggling against great difficulties, the greatest being their own inability to stick to a task and carry it to completion. They were, however, ready to make great sacrifices for the cause and great credit was due them for the progress they had made. If they failed it would be because the peasants could not carry out the sacrifices required of them. On the whole they were nice people.

It was clear from what he saw that a large proportion of the people had military training and that preparations for war were proceeding. From conversations with many people he found that they were taught that the world was against them and that the country most to be feared was England. They had an idea, at that time, that there would be a titanic struggle between their country and the rest of the world and the chief enemy would be England.

Dr. Kergin told of the trip through the country commencing with Leningrad, which in the distance looked like fairyland but on closer inspection proved to be very much run down and neglected. After spending a few days there, during which he inspected one of the finest picture galleries in the world, he, with a group of thirteen others, went on to Moscow. They travelled "hard" which meant in cars which were not upholstered. They were cleaner than the others. All baggage had to be watched or it would be stolen. Night and day one of the party was on watch throughout the whole trip.

Moscow, the old capital, had narrow streets and was something of an Oriental city. The feature of the place was the Kremlin which was visited under strong guard. The speaker was much pleased with the parks of culture and rest where the common people enjoyed themselves. They went on to Nijni Novgorod, to take a speedy hearing.

GOT RELIEF FRAUDULENTLY

Divisional headquarters of the provincial police here have been advised that James Edgar Allen has been sentenced by Judge H. A. Robertson at Prince George to one month's imprisonment on each of two counts, the terms to run concurrently, for obtaining relief by false pretences. Allen at first pleaded guilty but later decided to take a speedy hearing.

BIG BEARS ON ISLANDS

Bruin Invaders Prove Nuisance Around Allison Logging Camp At Cumshewa Inlet

SKIDEGATE, July 20:—Huge bears are giving A. P. Allison much trouble at his logging camp at Cumshewa Inlet, making raid after raid on the camp meat house. George Munro said he pumped ten pounds of lead into one bear, but it got away. Mr. Allison remarked it was just as well he did for, if it had been shot dead on the spot, it would have taken twenty men half a day to dig a large enough hole to bury it.

YANKS DOWN TWO GAMES

New Yorkers Win Over White Sox While Tigers and Athletics Are Rainbound

CHICAGO, July 20: (CP)—New York Yankees defeated the lowly White Sox here yesterday to reduce to two full games the American League leadership of the Detroit Tigers whose game with the Philadelphia Athletics at Detroit was rained out.

The Washington Senators continued their tumble towards the cellar by losing a close verdict to the St. Louis Browns below whom they dropped into sixth place.

In the National League, the three leading teams—New York Giants, Chicago Cubs and St. Louis Cardinals—all won games over Cincinnati Reds, Phillies and Boston Braves respectively. The fourth victory of the day in the senior circuit was won by the Brooklyn Dodgers over the Pittsburgh Pirates at Ebbets Field, the Dodgers, as a result, moving into a tie with the Phillies for sixth place.

Speaking of religion, Dr. Kergin said religious worship was not abolished but made difficult. No food allowance was provided for priests. He attended a number of church services and never had seen such blind superstition and childlike faith. The congregational singing in the churches was marvelous. He considered the anti-God museums which the state had made from some of the churches as rather childish. In one he saw a factory for the manufacture of relics of the saints from beef bones.

Dr. Kergin's address proved very interesting and he was thanked at the close by President J. J. Little.

Yesterday's Big League scores:

American League

New York 4, Chicago 3.

Washington 7, St. Louis 8.

Boston 5, Cleveland 6.

National League

Cincinnati 0, New York 4.

Pittsburg 2, Brooklyn 4.

Chicago 2, Philadelphia 1.

St. Louis 3, Boston 2.
