Luncheon Talk Today

At the Rotary Club luncheth yesterday Dr. Neal Carter stated that

sent away will be returned.

keleton in Prince Rupert as a per- North and South. he local museum.

which he took to the Experimental Wadsworth.

It seems that Sanstrum was a coup of scientists to the north, Prince John for Skidegate. These included Dr. David Starr Jordan and others. They dredged the bottom of the ocean and took many pecimens which were preserved in alcohol. The experiences of that trip nade him particularly interested in this find. Dr. Carter suggested that Sanstrum should benefit in some way from the find, possibly from sale of original photographs of it.

Dr. Carter stated at the luncheon that he was not a biologist and did not pretend to have any special knowledge of such creatures. It may be a rare specimen and, on the other hand, it may be something comaratively common. Since the find he was hearing all sorts of tales of the creature being seen alive by fishermen. The latest of these was of a fisherman who saw one raise his head about four feet out of the water about a year ago near Squa-Mr. and Mrs. Pete DeJong and daree fishing camp. Another fisherexactly what it was like.

In connection with the opening Mrs. Frank Morris left this week of the fine new Jewish General for Usk where she is paying a visit Hospital in Montreal this fall with her son-in-law and daughter.
