HIGHWAY MOST IMPORTANT

This morning one of the advertisements asking for suggestions as to Prince Rupert needs came to hand with the following suggestion: "Prince Rupert needs the highway connected with the east and when that is done Prince Rupert need not worry about needs."

We agree thoroughly with the writer that the highway is the greatest need of the day both for Prince Rupert and all the interior country. Once it is built it will revolutionize travel. Many people who otherwise never come here will arrive in their cars and spend a day or two or more before returning. Once people know they can get through to some definite objective they will drive north instead of going elsewhere. Prince Rupert will then have something to advertise. It will become the business of the local chamber of commerce to induce tourists coming to Vancouver to continue the run northward. Interior points will probably join in the move and the Associated Boards of Trade will likely take a hand in it.

Prince Rupert must allow no political or other considerations to interfere with efforts to secure highway connection with the rest of the world. We have already waited too long. We have been very patient knowing the difficulties that governments have had to meet in the past few years. There was no general united protest when the work was shut down several years ago and there has been no insistent demand that it be continued, at any rate not a demand that could be heard far beyond the boundaries of the city.

We have on former occasions pointed to Alaska where, although they have no city anything like the size of Prince Rupert, they have much more highway built than we have. The people there unite on an objective and waive political consideration. Here we seem to be tied to politics. If, for instance, this paper should advocate a strong demand being sent to Premier Bennett urging help for the province so that the unemployed could be put to work on the much needed highway, we should find Conservatives hanging back. If we should advocate bringing pressure to bear on Premier Pattullo, we should find a similar attitude taken by many Liberals. So many people are politicians before they are Prince Rupert citizens, whereas they should be Prince Rupert citizens first and politics should be secondary.

When the right moment arises we should all unite and make a noise that will be heard right across the country.

Major Montague Marsden Passes

Veteran of South African and World Wars Died in Vancouver; Was on Arctic Relief Expedition

VANCOUVER, Aug. 29: (CP)—Major Montagu Marsden, aged 62, veteran of the South African and World Wars, died of a heart attack at his home here. In 1894 he journeyed to the mouth of the Mackenzie River to the relief of whalers who had been locked in the ice for four years.

Mrs. J. M. McCawley and sister left on last evening's train for a trip east.

SPORT

SOFTBALL EVENED UP

C. N. R. A. Beats Grotto and Each Have Now Won Once

The Canadian National Recreation Association softball tossers turned the tables on the Grotto team last night and evened up the championship play-off series, taking an exciting game by a score of 3 to nil. No runs were made by either side until the fourth inning when the C. N. R. A. broke loose. Unger, first man up, reached first on an error by Forig, was forced at second base by McIntosh, and both Hibbard and Cameron hit safely, filling the bases. Geddes flew out to Hill. Pitcher hit one to Yager which was fumbled and McIntosh scored. Stiles then hit a low fly ball to short right field which Postulo dropped and both Hibbard and Cameron scored. Pitcher being caught at home plate for the third out. There was no further scoring although the Grotto threatened in both the seventh and eighth innings. In the ninth inning Horton caught three flies in centre field, the last one being a shoestring catch which ended the game.

The C. N. R. A. played good ball throughout. Hibbard and Astori getting two hits each.

For the Grotto, Bury and Gurvich were best, while Hill at centre handled six out of seven chances.

Yager connected with the best hit of the game in the seventh inning, driving the ball for two bases into the rock pile.

Grotto—Gurvich c., Yager p., Antonelli 1b., Fong 2b., Bury 3b., Nelson ss., Stalker H., Hill cf., Postulo rf.

C. N. R. A.—Geddes c., Pitcher p., Stiles 1b., Astori 2b., Hibbard 3b., Unger ss., McIntosh lf., Horton cf., Cameron rf.

Umpires—Comadina and Joy. Score by Innings:

SEAPLANE SQUADRON HELD AT VANCOUVER ON ACCOUNT OF FOG

VANCOUVER, Aug. 29: (CP)—After a visit here since Saturday evening, twelve United States Navy seaplanes, on their way back to San Diego after an expedition to Western Alaska, were held at Vancouver today for their hop to Seattle but fog conditions prevented them from making the flight up to an early hour this afternoon.

Otto Young Has Edge in Tennis

Darkness prevented the completion last evening of the men's singles final in the Prince Rupert Tennis Club's championship tournament. Otto C. Young leading Alex Mitchell two straight sets 9-7, 7-5 when play was postponed until this evening. The decision is to the best three out of five sets.

Admissions to Fair Carnival and Sports Near Four Thousand

Total paid admissions to the Exhibition Building during Carnival Week were 2172 adults and 937 children. It is announced from the offices of the Fair Board. On Wednesday and Thursday 892 persons paid admission to the ball grounds.

LOCAL NEWS

J. B. Woodworth, head of the Princess Royal Mines Limited, came north from Vancouver on the Prince Rupert this trip, leaving the steamer in the stream near Butedale and boarding a gasboat for Surf Inlet.

Capt. W. P. Armour returned to the city on the Prince Rupert this morning from Rochester, Minn., where he was with Mrs. Armour who recently underwent an operation there. Mrs. Armour is doing nicely following the operation.

Hagbart Lovdal, who arrived in the city a few days ago from the Yukon by airplane, left on last evening's train for New York where he will embark September 19 on the steamer Bergensfjord for a trip to his native home in Trondheim, Norway.

J. S. Motherwell, son of Major J. A. Motherwell, chief supervisor of fisheries, sailed by the Catala yesterday afternoon on his return to his home in Vancouver after having been employed during the summer in one of the Skeena River canneries.

Mrs. C. H. Hankinson and family returned to the city on last night's train after having spent the summer at Lake Kathleen. They have now taken up residence in the Pillsbury house on Fourth Avenue West where a large party of friends assembled last night in a surprise party housewarming.

BIOLOGICAL FISH WORK

(Continued from Page 1)

a matured yearling. Depredations of squawfish and Dolly Varden trout were believed to be to a large extent responsible and steps were now being taken to rid Cultus Lake of these enemies. Dr. Clemens also told of work that was being carried out in regard to artificial propagation which, so far, had not yielded much more satisfactory results than the natural means.

Scientific Organization

Dr. Clemens briefly described the organization of the Biological Board's scientific service which consisted of two major branches—biological, having to do with the natural history and conservation end, and fisheries experimental, applying to processing of fish, etc. Nainimo was a biological station and Prince Rupert a fisheries experimental station. The object was to dovetail the work of the two branches in the scientific work. As a result of the biological investigations, trends of the pilchard and trout fisheries had been learned. Research had also been carried out in regard to oysters—the native variety as well as imported Atlantic Coast and Japanese varieties. Two canneries had been established on the coast to pack Japanese oysters which were thriving here.

At the conclusion of his address, Dr. Clemens was tendered a vote of thanks by W. H. Tobey, president of the Gyro Club, who was in the chair. There was a large attendance of members and the following guests: Dr. W. A. Clemens, Nainimo; Dr. A. H. Hutchinson, Vancouver; George Dibb, Anyox, and Dr. Neal Carter, H. W. Birch, Dr. J. P. Cade, L. H. Haworth, G. W. Johnstone and O. F. Denstedt, Prince Rupert.

Mrs. G. C. Arseneau, who has been spending some time in the south, returned to the city from Vancouver on the Prince Rupert this morning.

Cook with Electricity for ECONOMY Coolness Cleanliness Convenience

Electricity is not only the cheapest form of fuel you can use but none of it is wasted. You get perfect, even heat exactly when and for just as long as you want it. Tests show that it costs less than a cent a meal per person to cook this modern way. This is real economy. YOUR electric range is here for as little as \$5 down and \$3 a month, and ready to save you money and give you the advantages of a cool, clean kitchen, tastier meals and far less work and worry.
