## EFFECT OF PUNISHMENT

It's a spring morning. The sun is shining and everything is happy. How can a man or woman be anything else but happy under such conditions? Again it is raining. A cold wind is blowing. All nature is shrinking from the blasts of the elements. Under such conditions it is much more difficult to be happy and cheerful.

Skeena River for some years.

It is a person's lot to be thrown among happy companions. Cheerfulness becomes a habit. It is difficult to be sad under such conditions.

Another person is thrown among companions who are always complaining, who feel themselves injured, who are at war with the world. They see nothing good in the world and they live only for themselves. Under such conditions it is very difficult to be happy.

The cheering thing is that we can change our environment, can influence our companions and can help to make the world brighter no matter where we may be located. Don't let environment spoil our lives. Rise above sordid surroundings.

## THE BY-ELECTION

We were told yesterday that the election in South Ox- Lawsuit Against ford was a test of the strength of the federal government and that all Canada was watching the polling, particularly in its relation to the Stevens policy of inquiring into mass buying, etc. We were also told that the election was Los fought along clear cut lines.

Following that declaration there is no need for further comment. The Liberal won with a majority of 1530 whereas at the last election the majority for the Liberal was only about half a hundred.

"There's the bike I want, Dad . . . right there in the C.C.M. catalogue"

Tom is a wise boy. He's been to the C.C.M. dealer's and had a look over the new 1934 C.C.M.'s. He has picked out the model he wants, and is showing it to his dad in the C.C.M. catalogue.

With what he knows about bikes himself and the information given him in the C.C.M. catalogue, Tom can show his Dad reasons aplenty why a 1934 C.C.M. is such a wonderful buy.

He can tell Dad all about the seamless steel tubing of aeroplane lightness used in the frames-the C.C.M. Triplex Hanger that makes a C.C.M. run so easily-the powerful C.C.M. coaster brake that coasts so freely and stops so smoothly-the comfortable suspension saddle-the new Endrick Chromium plated rims, the rustless steel spokes and the new, racy Dunlop tires. He can also tell Dad that the bright parts are not merely Chromium plated, but the

Chromium is applied over C.C.M.'s famous 20-year nickel, so that this super-brightness is sure to last.

Italy is not to be a country of "single blessedness."
