DON'T BE DIRTY; CLEAN UP!

This is the season for cleaning and painting. During the dian Pacific Railway in Western past few years there has been little money for paint and himself in Winnipeg, practising wallpaper and wall tinting. Dirt has been allowed to invade here since that time. the homes and the effect is bad. Not only is dirt on the In 1904 Dr. Black was married to walls unhealthy but it affects the whole outlook of the Miss Isabel Hunt of Winnipeg. Befamily.

Just now is a good time to buy paint or one of the var- Dr. Black was a member of the ious calcimine preparations which come in various tints. Wininpeg Medico Association, the The smell of fresh paint and the glow of clean walls is an American Medical Association and inspiration to better work. It helps to bring good cheer to the Surgeons of North America, He any family. Keeping the home clean is the first duty and also belonged to the Masonic Oranew wall paper, a new coat of paint, a new kitchen tint, byterian Church.

these all help to brighten the home life. They make for harmonious living.

TEACHERS ARE HEADLINERS

The teaching profession is gradually being recognized, gone and I'm still here. This week a convention of teachers is being held in Vancouver and the newspapers of that city have been giving their proceedings double headliners on the front page.

And, after all, why should not the profession be recognized? The men and women who guide the destinies of the younger generation undertake work that is intensely chariot wheel but don't know it. important. The future of the country depends largely on them. The only way to insure that men and women of the smoothly once more. There has not best ability make the profession of teaching a life work is been a crisis for several weeks and to make the pay and professional standing at least equal there is no word of one developing to that of the doctor or lawyer. The work they do is more in the offing. important than that in most other professions. Great abil- Our old friend and local school ity is need to do the work well. EXPORT MARKET

Since the market for Canadian grain has been restricted by the action of most European and other buying countries in placing prohibitive tariffs on imports, it is becoming necessary for Canada to produce livestock, dairy products, poultry and eggs and anything that finds a ready market.

One difficulty in connection with the raising of stock is that local freights from the prairies to the coast are much higher on grain to be consumed locally than on export grain. The result is that prices are too high in British Columbia to allow farmers and poultry raisers to import for feed purposes. We are not criticizing the railways but simply pointing out a condition that makes it difficult to dispose of prairie grain in British Columbia. If B.C. feeders could secure prairie grain at anything like export prices they could use much more than they do at present and thus help out the grain growers.

BARKING DOGS

Editor, Daily News:-

barking dogs to endeavor to keep their pets under more control, especially at night after 10:30 or 11. The incessant and persistent barking of dogs both day and night is exceedingly annoying to anyone trying to seek repose or quietness. or to concentrate on reading or writing. There is no particular part of the city where this annoyance exists as dogs appear to be all over the place-here, there and everywhere. However, I am quite sure owners of dogs! in Rupert do not mean to annoy the public and, after worry about it. Follow the simple this gentle protest, they may abate directions given above. This small the nuisance as far as it lies in their

PRINCE RUPERT TO TERRACE

Editor, Daily News:-

You have not been saying much about the northern highway lately. possibly because of the provincial political complications, but, now | that the government is given the power to act and all it has to do is to raise the wind, it might be wise to consider pressing forward the need of the extension of highway facilities eastward from Prince Rupert.

The railway company refuses to let us get out by that route, so it is up to us to rustle for a highway that will make us independent of the railway.

Highways have been built in th Wil- not of the right kind so no expense toria to try to take care of our un- fler. was spared in giving the people who came to Winnipeg nearly thirty there what they wanted. Governor Rolph

SAN FRANCISCO, April 5:-Following his discharge from St. Francis Hospital, "completely recovered" from an illness of several weeks with pulmonary congestion, Governor James Rolph jr. has left to make a brief stay at his ranch before resuming his executive duties at Sacramento.

It used to be sulphur and molasses

but now it's delicious

Kelloggs ALL-BRAN

WILL you ever forget the sulphur and molasses "spring tonie"? But times have changed. Today, we know that much of the listlessness of spring days results from common constipation.

This condition can be corrected by including plenty of "bulk" with meals. So today, instead of getting an

unpleasant "spring tonic," you go to your grocer's for a package of Kellogg's ALL-BRAN.

Two tablespoonfuls of this delicious cereal daily furnish the "bulk" needed to help promote regular habits. ALL-BRAN also provides vitamin B, as well as a generous share of the iron you need in spring.

People who are really ill after the winter, of course, should co sult their physicians. ALL-BRAN is simply recommended for common constipation - and is not a "cure-all."

The labels of bran cereals tell,

now, whether they are all bran or only part bran. Get Kellogg's ALL-BRAN-and avoid disappointment! At all grocers. Made by Kellogg in London, Ontario.

Keep on the sunny side of life K.K. Kellogg
