

Moncton Hawks Win Allan Cup

HOWE IS IN FINAL

George Howe came up from behind last night to defeat J. Hillman, last year's champion, in the semi-final of the city intermediate individual billiard championships, the score being 250 to 229. At one time Howe was 65 points behind and it looked like it was going to be easy for Hillman but the former rallied and a 33-point break helped him to forge ahead.

Pete Pritchard and John May will meet tonight to decide who shall qualify for the final with Howe.

1934—year of outstanding automotive achievement brings you Pontiac—a new model of extraordinary performance, comfort, and value! Time-proved features which brought fame to past Pontiacs have been retained. Important new refinements have been added...many of them actually suggested by Canadian motorists, through their whole-hearted co-operation with General Motors' Customer Research activities.

First of all, the now-famous Knee-Action Wheels enable you to enjoy a Floating Ride. No bumps! No jars! No shimmy! Naturally, the exclusive Fisher No-Draft Ventilation, pioneered in last year's General Motors cars, has been retained and improved to provide an even greater measure of comfort and protection. Safety is further assured by new Bendix brakes . . . a strapping K-Y "Girder Box" frame . . . and new Multi-Beam headlamps. Pontiac's mighty Straight-8 engine has been correspondingly advanced. It's faster, smoother, more powerful, more economical . . . and, because of live rubber suspension, practically vibrationless. Then too, increase in wheelbase, in car weight, in body size, and in tire size, all tend to make this the roomiest, easiest-riding automobile ever to bear the famous Indian-head trademark!

When you see this distinguished modern car, you'll certainly want to drive it! And when you drive it, we promise you'll experience an honest-to-goodness *new* sensation. Please accept our friendly invitation to ride and drive in Pontiac, the car that makes all roads smooth. Start the new year right! Let Pontiac show you the way to a completely new kind of low-cost motoring enjoyment and satisfaction.

DR. MANDY SUGGESTED

Stewart Board of Trade Would Have Him Named Provincial Mineralogist

STEWART, April 5:—At a regular meeting of the Stewart Board of Trade correspondence was received from Hon. H. H. Stevens, minister of trade and commerce, and Olof Hanson M.P. dealing with the board's actions on the silver question.

A letter from the Silver Dollar Association of Vancouver asking the board to sponsor a resolution in favor of increased silver coinage was replied to by the secretary, showing that this board had already taken the suggested action and made representations to the Banking and Currency Commission, Rt Hon. R. B. Bennett and other public men.

Reports were received from committees dealing with freight rates, publicity and policing. The board forwarded a telegram to the provincial minister of mines recommending the appointment of Dr. J T. Mandy to the vacant position of provincial mineralogist. There was some discussion as to whether this district would not thereby lose a very valuable asset but it was felt that a man with Dr. Mandy's qualifications would be of inestimable value to the mining industry as provincial mineralogist.

The application of the Consolidated Mining and Smelting Company for renewal of the railway charter, as reported in the press was the subject of some informal discussion.

Mrs. Helen Wills Moody Still Has Spinal Trouble

BEVERLEY HILLS, Cal., April 5:—Reports that Mrs. Helen Wills Moody might make an early return to the tennis courts are declared to be very much exaggerated.
