letter from R. L. Newcomb, which he stated in substance Vacation Days | that the Salt Lake was being exploited for the benefit of the leaspoonful of Prince Rupert Boathouse.

Alderman Casey considered that the matter should be taken up and investigated. He thought I if the summer resort was being made a monopoly for any one operating concern the council should intervene and try to rectify it. He did not think that a public institution of that kind. which was being kept up by publie funds, should be allowed to cam every few divert to the business channels of any one commercial house. He thought it would be advisable to have a committee appointed and ascertain if it was the truth that the Prince Rupert Boathouse was being given special privileges of any description. Ald. Perry concurred in Ald. Casey's views.

Good Work Done

Ald. McMordie stated he had terests of the boat owners he number of years and had been thought the matter should be inin close touch with the work of vestigated and no hasty decision the club. TRAINED IN

Two Withdrawn From School In Order to be Instructed in Rites and Traditions.

ARE CONSECRATED.

Refrain From Eating Flesh of Domestic Animals And Learn About Herbs.

WASHINGTON, July 22 .- The controversy arising out of the question of withdrawing two Indian children from school in the Taos Pueblo, New Mexico, for the purpose of teaching them the pagan rites and traditional customs of the Pueblo ancients has been branded a "tempest in teapot," by Commissioner Burke of the Indian Bureau.

Declaring the position of the Indian Bureau had been misrepresented, Commissioner Burke expressed a belief that the question would be amicably settled before the new fall school term at the Taos Pueblo begins.

According to new information Mr. Burke has received, two Indian children between the ages withdrawn for an 18-months period from modern educational instruction, to be taught the ancient rites and traditions of the tribe. As there is no written history of the Pueblo the purpose is to develop the children to become priests and medicine men, and enable them to pass on to succeeding generations by word of mouth the story of Pueblo life.

Not Only Religion.

The instructions given the children, Mr. Burke said, deal not only with religion matters but also the history and materia medica of the Pueblos from the beginning of time, including the uses of herbs and their medicinal qualities. The boys are supposed to be consecrated, are not permitted to play with other children and sleep under guard of an elder Indian in the 'estufa" or "kiva." a chamber built in or beneath the pueblo where secret religious ceremonies and tribal councils are held, and which is entered by a hole

During their year and a half training, Mr. Burke continued, the boys are fed upon corn and corn products, squashes and other traditional vegetables. Meat from domestic animals is forbidden, such diet being confish and wild birds.

ome was being attacked. The massive walls were breached. The enemies pressed hard on every side. To the north, the invaders crept stealthily through the night to storm the gates. In the dark, they stumbled on a flock of geese. The fowls cackled loud and long---the sentries heard---and Rome was saved.

Advertising is continually saving something for someone. It will save for you, too, if you use it properly.

It will save you money by pointing out real bargains, by telling you of true values, by giving you prices to compare and by telling you how much you should pay.

It will save you time and effort by telling you exactly where and when to go for what you want to buy. You don't have to "shop around."

It will save you disappointment by telling you just what you can expect from your purchases. Every time a merchant or manufacturer advertises, he obliges himself to sell you goods that fulfil his claims. He knows it doesn't pay to advertise unworthy wares.

Read the advertisements as a plain, every-day business proposition. It is a duty you owe yourself and your purse.

The advertisements will help you save
