AN AGE OF UNREST

This is an age of unrest. There have been similar per- the big companies will feel bound to for the rose show. iods in the past but not so world-wide as today because advertise the garden scenes of the means of communication were never anything like Prince Rupert. New plots of ground It is noted that in the rock gar- provide for women both before and they are today and education was not as general. The are being cultivated each year, the dens there is not sufficient variety, after childbirth. Free education countries of the world know more about each other in 1935 cularly noticeable. The Canadian grown in the south do not succeed ing in houses was not allowed. Forthan the English counties knew of each other a few years | National and provincial governance but aubrelias and sedums will merly it was common to find eight | ago. The universality of unrest is a sign of the times, an ment gardens will be of compelling succeed if not too much exposed or ten people of both sexes sleepindication of growing internationalism.

In Canada the unrest is expressed in various ways. At the extreme we find the communists working through their various allied organizations such as the Canadian Labor Defence League, all more or less in touch directly or indirectly with the Internationale in Russia.

A more moderate unrest movement is the C. C. F. or-beautiful or interesting from ganization which aims at bringing about better conditions through constitutional changes. It has attained to considerable prominence in British Columbia politics through some interesting garden worthy of the success of a number of candidates at the polls in the last provincial election. It is led provincially by a very high type of man in the person of Rev. Robt. Connell, who is re- Society to award six prizes for gar- ially in gardens well back from the was the University of Callao in Peru cognized as the official leader of the opposition in the dens in August of this year should waterfront. Legislature. This is a purely Canadian organization, al-stimulate a desire among gardenthough its leaders are disciples of Carl Marx, the German socialist.

The Douglas Credit movement is an outcropping from The date of the rose show this slipper or moccasin flower. This many towns and cities and touchthe general unrest of the country. With the stage all set and the people anxious for reforms, the Liberal party under Mackenzie King has a great opportunity to bring about such changes as shall give the men and women of the country a fair deal and thus allay the unrest. Strong and fearless leadership is all that is necessary.

As Pope Climaxes Celebration

In celebration of the Resurrection of Christ on Easter Sunday Pope Pius XI appears on the central balcony of St. Peter's in Rome. He is seated on his throne, wearing a robe of white silk threaded with pure gold. Some of the 13 cardinals who accompanied him through the huge basilica (also in white and gold) are standing beside him. Papal guards and courtiers are also

interest pretty soon.

There is developing in the city considerable competition among streets or avenues with a general desire among residents to make their particular street the most floral point of view. There is not a street in the whole city but has

ers to improve their places and try to win a trophy or small cash prize.

Ed Lipsett Tells Rotary Club Of Very Interesting Tour of South American Countries

Work that the Rotary Clubs are doing in the cities of Chili and Peru in raising the standard of living of the people in those republics was described by Edward Lipsett of Vancouver who addressed the local Rotary Club at its luncheon yesterday. Largely as a result of the club's efforts, housing of the laboring class was being improved. cleanliness was being encouraged and wages were being increased. As it is wages are very low, some-

were going on to look after the under-privileged children and to

Mr. Lipsett, accompanied by Mrs. Lipsett, recently visited most of the It is now time to plant out seed- countries of South America and than small plants early. In many ner, Among the interesting things noted was the fact that in Peru sugar plantations were being replaced by cotton fields and the proing but it is not necessary to have duct sent to the United States while them that far advanced in order to in the United States the growing
