SESSION TO BE LENGTHY

Owing to the illness of Premier Bennett it has been found desirable to lengthen the present session of Parliament so that it seems likely it will not rise until mid-summer. That means a fall election. In the meantime, it is the hope of everyone that the Prime Minister will be fully restored to health in time for him to visit England and take part in the King's Jubilee celebrations. If he should return from London with Jubilee honors conferred by the King, many people will be pleased. While we do not believe in titles, we know of no person so well fitted to enjoy them as the Canadian first minister. He has the necessary millions to enable him to carry his honors with proper dignity. It has even been suggested that, if he is defeated at the polls, he may retire to England where titles are thoroughly appreciated by a section of the populace.

SEE OURSELVES AS OTHERS SEE US

Sometimes we get tired of trying to make the world see our possibilities in this part of the country. For that reason it is refreshing for a person to come from another country, where they enjoy a slightly more equable climate, to tell us that we are sitting on top of the world so far as possibilities are concerned. To those of us who have looked along the harbor for twenty or more years and seen little there except a fleet of fishing boats and coasting vessels, it is pleasing to be told again that we have one of the finest harbors in the world, that we have a strategic position close to the Orient with its vast trading possibilities. For their cheery words we thank our visitors and hope they will see fit to show their faith in the city in a still more substantial manner.

NO LOOKING BACK

In a letter received from a Liberal source we are reminded that the world is moving steadily forward and that Liberalism of today is different from the Liberalism of a few years ago. It is progressive endeavor and ceases to be Liberalism when it remains stationary. Evidently Right Hon. W. L. Mackenzie King realizes this for he was recently the honored guest of seven hundred prominent supporters at a banquet and most of those supporters were men who have been declaring for an advanced policy, a new deal in Liberalism.

Simple Pledge That Residents Are Asked to Make

Put Men To Work Gainfully

The people of Prince Rupert are asked to co-operate for the purpose of providing gainful employment for as many people as possible during the next six months. A group of canvassers will undertake to call on all local citizens asking for pledges from them that they will undertake to spend as much as possible and stating how much they plan to spend on gainful employment.

It is not the intention to interfere with the private concerns of our neighbors but to try to secure as much employment as possible as a means of improving local conditions.

We have set as our objective the sum of \$50,000

If every person will undertake to spend some money in such a way as to make conditions better, we shall easily attain our object.

The pledge cards will be kept private in order to prevent solicitation on the part of those who may be trying to secure advantage from the campaign.

We are not an employment agency and have nothing to say as to who shall be employed or what they shall be paid. That is between the employer and employee. All we ask is that the money be expended. The provincial employment officer can supply men if required.
