Particularly will this be so since Mr. Asselstine at present is Member of the Legislative Assembly for Atlin district.

Of course, his departure from the district does not necessitate his quitting his seat in the Legislature although the licence fee and those who are there is no word yet as to what may or may not be done in paying protest because they are that regard. OCEAN FALLS

Three steamships were in port Tuesday for paper and pulp-the Cape York, the Nootka and the Northholm. The Cape York took out a part cargo of newsprint for Australia by way of San Francisco, the Nootka took a load to Vancouver to go to the Orient on the next Empress liner and the Northholm loaded up for southern ports after discharging a cargo of coal. The Prince Rupert came in just as the Cape York was leaving, making the harbor look very busy with four vessels there at one time, in addition to the very considerable fleet that makes Ocean Falls it home

Matt Haslett returned at the week-end from a visit to Vancouver. He is planning taking an extended holiday this coming sum-. mer during which he will visit the land from which he got his brogue.

Irvine McDermott of Victoria was in Ocean Falls at the beginning of the week. He came north to have charge of the stevedore work on the Cape York. He says he always enjoys a holiday at this port.

There was a big crowd out to. hear Grace Moore in "One Night" of Love" this week at the theatre. Ocean Falls people always show their appreciation of good music 3.00 and clever artistry.

Minister's Reply

Hon. Alfred Duranleau, minister

'As to the lack of coverage, have already stated that the radio commission has a program of construction including a certain number of powerful station, one in Vancouver, one in the eastern provinces, and at other places where the service is found to be poor, and it is hoped this will give entire satisfaction. But it involves expenditure and I can state to the committee that the amount collected for radio licence fees was not sufficient to allow the commission to build powerful stations."
