Ethiopian Warriors Are Marching Toward Border As Precautionary Measure But General Belief is That There Will be no Military Move For At Least Fortnight

LONDON, Sept. 24: (CP)—The British cabinet met today to consider the international situation but no statement was given out. From Rome came the report that relations between Italy and Great Britain seem definitely improved as a result of a conference between Premier Benito Mussolini and Sir Eric Drummond, British ambassador. Addis Ababa reports today stated that warriors were marching toward the border as a precautionary measure against surprise Italian attack. It is generally believed, however, that no military move will be made for at least a fortnight.

## MERGING RAILWAY

Only Way to Prevent Amalgamation is to Vote Liberal, Says Mackenzie King

PRINCE ALBERT, Sask., Sept. 24: (CP)—The road to amalgamation of the Canadian railways had been made easier by Prime Minister R. B. Bennett's policy but the Liberal party is pledged to maintenance of the integrity of the Canadian National Railways, Rt. Hon. W. L. The only sure way to defeat an amalgamation movement was to return a substantial Liberal majority, Mr. King asserted.

## INSURANCE OF HEALTH

Proposed Legislation Considered By Labor Council—\$200 Exemption Objected To

To consider proposed provincial health insurance legislation, the Prince Rupert Trades and Labor Council held a special meeting last night with President S. D. Macdonald in the chair and a good attendance of delegates.

The meeting indicated that it was in full accord with the principle of health insurance but there are certain features of the proposed legislation to which objection is taken. Chief among those is the proposal that those receiving salaries or wages in excess of \$200 per month should be exempted from the operation of the act. It is the feeling that, through such an exemption, an important source of revenue would be shut off, coming from persons who are in a good position to contribute.

Other features of the proposed legislation were considered.

## STORMY MEETING

Great Clamor Greeted Premier Bennett in Vancouver—Says Japan Will Not Dictate To Canada

VANCOUVER, Sept. 24, (CP)—Premier R. B. Bennett declared, addressing a public meeting here last night, that, so long as his government stood, neither Japan nor any other country would dictate the tariff policies of Canada. He charged Rt. Hon. William Lyon Mackenzie King, the Liberal leader, with having taken sides in the dispute.

When Mr. Bennett started his address, his voice was all but drowned by a great clamor from the higher galleries. "These are the people who talk about free speech," he exclaimed. After half an hour, the audience quietened.

## Coal Miners' Strike Seems Quite Likely

NEW YORK, Sept. 24:—With the contending parties still as far apart as ever following collapse at the week-end of latest negotiations, it appears inevitable that the bituminous coal miners' strike, involving 500,000 men, will go into effect this week. The miners are demanding an increase from \$5 to \$5.50 in the basic wage rate and a reduction of from 35 to 30 hours in the working week. The operators so far refuse to meet the demands. The country is estimated to have enough bituminous coal on hand to take care of its requirements for a month and a half.

## FORMER LOCAL BOAT FOUNDERS

Troops Drill For War As Parliament Faces Crisis

A crucial hour in the history of Ethiopia was dawning as these pictures were made in Addis Ababa, the capital, and the world's oldest empire stood on the verge of chaos. Of seemingly ominous import are the black clouds that scud across the sky as crack troops pass in review before Emperor Haile Selassie (top), and then leave for the "front," where they may soon be called upon to meet the might of Italy in battle. In the background is a statue of Emperor Menelik the Great, who inspired the disastrous Italian defeat at Adowa years ago. Below, the elders of the land meet in solemn conclave and the only topic they discuss is war. Two elders sit on the bench; the others, all members of the Ethiopian parliament, join with them in seeking ways to avoid war while retaining independence, or, if the Italian invasion comes, of resisting subjugation.

## THE POLITICAL CORNER

"VOTE ME OUT OF OFFICE"

On July 12th, 1930, when Mr. Bennett, the Great Promiser, was seeking the support of the Dominion, immediately before the last election, speaking at Quebec City he said:

"There is no necessity for a conference on unemployment. The solution is too apparent. What you want is work, not conferences, and you are going to get work."

"Unless my promises to the people of Canada are kept if elected to office I want Quebec and other members to vote me out of office. I do not want place and power over broken promises. Let us not be deceived. Let us get to grips with our problems. Let us have action and not words. I have well-considered plans to submit to parliament."

"I have investigated this problem (unemployment). I know what this problem means. I know it must be dealt with, that the hungry may be fed and be given work and that the life of the country may continue."

And again at Moncton, N.B., on July 10th, 1930:

"Mr. King promises consideration of the problems of unemployment. I promise to end unemployment. Which plan do you like best?"

And now, Mr. Bennett, having broken your promise to give the people work instead of the dole; having broken the many other pledges you made to the people in your campaign of 1930, we are going to take you at your word. You have said you do not want place and power over broken promises and that you wished to be voted out of office if you did not keep your pledges.

Very well, Mr. Bennett, on October 14th we will do just that.
