This Shows WHY You Get Such Fast Relief from "ASPIRIN"

WHY "ASPIRIN" WORKS SO FAST

Drop an "Aspirin" Tablet in a glass of water. Note that BEFORE it touches bottom of the glass it has started to disintegrate. What it does in this glass it does in your stomach. Hence its fast action.

Quick Relief for Headaches, Neuritis, Rheumatic Pains

The old adage says, "what you see you believe." So the nurse, pictured above, shows you two actual photographs to prove the quick action of "ASPIRIN."

Look at them, and you will see one reason why Scientists rate "ASPIRIN" among the fastest agents, now known or ever known, for the relief of headaches, neuritis, neuralgia and rheumatic pains.

You'll see that an "Aspirin" tablet, dropped into a glass of water, starts to disintegrate, or dissolve, before it hits the bottom of the glass. Hence, is ready to go to work almost instantly you take one. For what happens in that glass

happens in your stomach when you take an "ASPIRIN" tablet. Relief comes in a few minutes.

Countless thousands know that about "ASPIRIN." Know by experience that it brings the quick relief you want when in distress.

Keep this in mind the next time your work or play is handicapped by a bad headache, neuritis or rheumatic pain. Learn for yourself how fast you can get relief.

● "Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.
