EXCURSION FROM INTERIOR

The announcement is made that an excursion on the Canadian National Railways will bring visitors here from points as far east as Prince George on December 10 returning either the next day or three days later. This will give the visitors an opportunity to do some Christmas buying and at the same time will enable local people to keep in touch with the interior.

Prince Rupert people might well extend themselves a little in entertaining the visitors during the short time they are here. It is important that these visits be made attractive. Public bodies might do well to consider what part, if any, they could take in making things pleasant for the visitors. The Retail Merchants' Association is the organization most directly interested.

GRACE MOORE COMING

The latest picture of Grace Moore, the wonderful singer here this fall, is to be here next week and doubtless most Prince Rupert music lovers will want to hear her and see the picture. It is very noticeable that the local people like the best in pictures and especially the best singing. It is satisfactory to know that the local theatre brings us a good share of outstanding entertainments and it is well to let the management know that these good things are appreciated.

EMPIRE TRADE

Exports from Canada to British Empire countries in October totalled thirty-eight million dollars most of which was direct to the United Kingdom. Australia took a little over a million dollars worth of Canadian goods and British South Africa a similar amount. During that same month the exports to foreign countries amounted to twenty-nine millions of which United States took nineteen millions, Belgium two and Japan one. Other countries took less than a million and most of them less than half a million. United States took most of our gold, some five million dollars worth. United Kingdom took ninety percent of our meats and a little more than half of our copper.

Evidently Britain is our best customer and is likely to continue to lead for some time to come.
