### EAST AND WEST

News Department Telephone ...... 86

Member of Audit Bureau of Circulations

It is the expressed opinion of Mitchell Hepburn of Ontario that the east would send a majority of Liberals to Parliament but he was not so sure about the west. Evidently his suggestion was that the west might not fall in line with the east and might lose the advantages which street cars are being turned into could accrue from a Dominion policy supported by members from all the provinces.

Some voters will not consider this a sufficient reason tours through suburban towns. for returning Liberal members but others will feel it is an essential. It is the feeling of many that British Columbia cannot afford to be an outcast province.

### PURCHASING ALBERTA

When the Premier of British Columbia went to Ottawa vice. and asked for co-operation from the federal government he was refused. All he got was just enough to prevent injury to the credit of the Dominion. There was no attempt made to co-operate to relieve a very serious situation.

When the new Premier of Alberta telephoned Prime Minister Bennett asking for co-operation in the carrying out of his scheme, he was assured that he would get it. Mr. Bennett, in view of the impending election, was ready to promise anything. The result is that Mr. Bennett seems likely to get the support of the social credit element in the province of Alberta.

There never was a more brazen, case of purchasing votes than the one in point. Everyone knows that Mr. Bennett has no sympathy with social credit. He is a "sound money" advocate of the strongest type. Everything he has ever done and said indicated that. Now, under the shadow of an election he expresses strong sympathy with the strong Alberta movement and loans the province enough money to carry it past the election.

Once the election is over Aberhart will get scant sympathy for his plan if by any ill chance the present government should be returned.

## Man in the Moon

A Vancouver firm of stock brokers is advertising "Prompt executions on the Vancouver Stock Exchange." Now what about sending a few local citizens to the exchange?

pleads Prime Minister Bennett in his latest speech.

The chief danger of the election campaign now in progress is that the electorate will become afflicted with political dyspepsia before election day arrives.

situation.
