If no fair is held this year the building son and Lindsay. will be needed next year. It must be preserved for the use of the community. This is something for the business interests of the city to think about. The fair cannot well be held without the big building.

It has been suggested that the affairs of the association should be wound up and the running of the fair this year! be given over to the Junior Chamber of Commerce or some other organization that would also undertake the work of making repairs on the building with city aid. We are simply passing on the suggestion for what it is worth. At any rate it would seem that something must be done.
