## WHIFFLETS

From the Waterfront

Southbound from Skagway to Vancouver, C. P. R. steamer Princess Norah, Capt. William Palmer, arrived in port at 3:30 yesterday afternoon from Alaska and sailed at 5 p.m. for Vancouver. She had on board 156 passengers of whom nine disembarked here while three went on board at this port for Vancouver. The Princess Norah will now operate on a fortnightly schedule to Alaska for the winter, being next due here northbound a week from next Sunday morning. The southbound passenger list on the Norah yesterday included Capt. Joseph Gardner of the Tagish Lake steamer Tutschi and Capt. Albert T. Jones of the Atlin Lake steamer Turone as well as crews of the two ships. Capt. J. McDonald, veteran regular master of the Tutschi, who sustained a fractured hip in a fall three months ago, is still in hospital at Whitehorse.

With a fair sized list of passengers on board, Union steamer Catala, Capt. James Findlay, arrived in port at 7:15 last evening from the south and sailed a couple of hours later for Stewart, Anyox and other northern points whence she will return here tomorrow morning and sail at 1:30 p.m. for Vancouver and waypoints. The vessel was at Port Simpson at 12:40 a.m. today, at Stewart at 9:15 and at Mill Bay at 4:30 this afternoon.

The current cold snap is not very much appreciated by the halibut fishermen. Fishing is a rather difficult task with temperatures so low that gear becomes iced up.

Capt. J. R. Elfert, harbor master, reports a gratifying enrolment at the winter school of navigation classes which were opened at the end of the week. Still more are expected to enrol as the larger halibut boats commence to tie up for the winter.

## INTERIOR MAN DIES

Sudden Passing Of William Clark Of Forestdale Removes Popular Pioneer Figure

SMITHERS, Nov. 4.—Word was received in Smithers this morning of the sudden death of William Clark of Forestdale. Mr. Clark was in hospital at Smithers a month ago with a heart condition but returned to his home after a weeks' rest and treatment. He died at three o'clock this morning and it is presumed that death was caused by his heart trouble although no details have been received. Deceased was one of the best known and most popular men in the Bulkley Valley. He came into the valley on the construction work of the Yukon Telegraph line many years ago and has lived here ever since that time. He had extensive farm interests at Forestdale with his brother, Robert Clark, and was also Government Telegraph agent at that place. His name had been widely mentioned as a prospective candidate for the Liberal nomination for the by-election in Omineca if his health would permit and it was generally conceded that he could have won the seat quite easily. He leaves a widow and family and his brother, Robert, all of Forestdale. He was known to nearly every person throughout the Bulkley Valley and his sudden passing will be mourned by everyone.

### BRITISH ELECTIONS

Municipal elections in Great Britain are a pretty sure indication of the way the country is going to vote at the general election on November 14. They are also an indication to Italy and the rest of the world that the people are behind the present National government in its attitude toward Ethiopia. As we mentioned before unless something unforeseen occurs the Baldwin Government in Britain is likely to be returned with a large majority.

### THE ESPERANZA MINE

On Thursday of last week the News published a small item stating that the Esperanza mine had closed and the crew gone to Vancouver. Objection was taken to this by a local director of the company and at his request we stated that it was only the construction crew that had gone south and the operating crew was expected on the Catala Sunday and it was planned to start shipping concentrates about November 14. No crew arrived on the Catala and our information is that no machinery has yet arrived in connection with the mill installation. As we stated in the first item the mine is closed but not necessarily for the winter. Also the windows of the new mill building are boarded up. The foundations, however, are all ready for the mill machinery when it arrives.
