**NO TAXES FOR WAR**

There is a growing feeling throughout the country that no country should be taxed for war. During the last war many young men gave their lives for their country. Other young men were more or less permanently incapacitated for making a living and some even yet are suffering for their patriotism. During that time a few people became rich on war profits. But the whole country today, every individual, no matter how poor, is taxed to pay for the four years of patriotic experience.

The Native Sons of Canada suggest that in future the people of the country shall not be taxed for any war. If it is found necessary to fight, the government of the day shall for the time being take over all the wealth of the country and use it as it sees fit in carrying on the war. At the end of the campaign, it is to be supposed the money or property or securities will be returned to the former owners less the amount needed in the war. Then the country would not be encumbered as it is today in order to pay for something that should have been paid at the time. No more war debts would be incurred unless it was found necessary to borrow from some other country.

It would not be necessary for the government of the day to stop any industry in order to take over the wealth of the country. The people now operating would carry on. The only difference would be that they would then be working for the government instead of for themselves.

There is a very strong feeling, at any rate in the west, against conscription of men without conscripting wealth. It is considered that the people who carry on the government think more of money than they do of men. Their patriotism consists in sending someone else to fight the battles. Should the country be involved in war there will be a strong popular demand for all to share alike in the sacrifices she is called upon to make. This demand will be insisted on by many war veterans who feel that they did more than their share when they offered their lives while others made themselves rich.

**BOYS!** *Torchy Peden*

**RIDES A C.C.M. on the Streets and Highways as well as on the Race Tracks**

BIG, good-natured Torchy Peden, world-famous 6-day rider, just loves to ride a bicycle. He actually spends more time spinning along city streets and country highways than he does on the race track.

By riding out-of-doors regularly Torchy Peden fills his lungs full of life-giving fresh air, keeps his muscles flexible and his body fit. He says, "The bicycle is a grand conditioner."

And, of course, you'll want to ride the same make of bicycle as Torchy Peden. Anyone who has seen this human dynamo do his stuff in a 6-day bicycle race knows that no ordinary bicycle could stand up for long under his hard riding. Yet Torchy can show you bicycles in his C.C.M. fleet that have gone over 42,000 miles and are still on race-track duty.

All C.C.M. models have the Straight Line Drive which makes the bicycle run so truly that "back and front" wheels track like one. They also have C.C.M.'s own weather-resistant, brilliant Enamel; C.C.M.'s own Chromium Plate over a 20-Year Nickel; Triplex Hanger; Rustless Steel Spokes; Endrick or Enamelled Steel Rims; Dunlop "Fort" or Dunlop Imperial Tires.

In the long run you save money by buying a C.C.M. Ask Torchy—he knows!
