How to Keep Colds UNDER better CONTROL

Catching Cold? Vicks Va-tro-nol helps Prevent many Colds
Caught a Cold? Vicks VapoRub helps End a Cold Sooner

At the first warning nasal irritation, snuffle or sneeze, use Vicks Va-tro-nol—just a few drops up each nostril. Va-tro-nol is especially designed for the nose and upper throat—where most colds start. It stimulates Nature's own functions—in the nose—to help prevent colds, and to throw off head colds in their early stages. Used in time, Va-tro-nol helps avoid many colds.

If a cold has developed, rub Vicks VapoRub on throat and chest bed-time. VapoRub acts directly at once: (1) By stimulating through the skin like a poultice plaster; (2) By inhalation of medicated vapors direct to inflamed air-passages. Through the night this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.

Follow Vicks Plan for Better Control of Colds
A helpful guide to fewer colds and shorter colds. Developed by Vicks Chemists and Medical Staff; tested in extensive clinics by practicing physicians—further proved in everyday home use by millions. The Plan is fully explained in each Vicks package.
