The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything alse. 25c.

# MANY CEREALS

Nothing anyone eats is more important than Vitamin B-the vitamin for keeping fit. Yet it isn't in many cercals, when cereals are supposed to be our best source of this food element.

Many are nervous, poor in appetite, system out of order, because their daily diets lack enough of the precious Vitamin B for keeping fit. Few things keep them back like a lack

of this protective food element. So give everyone Quaker Oats every morning. Because in addition to its generous supply of Vitamin B for keeping fit, it furnishes food-energy, muscle and body-building ingredients. For about 1/2c

Start serving it tomorrow for a 2-weeks test. Quaker Oats has a wholesome, nutlike, luscious appeal to the appetite. Flavory, surpassingly good. All grocers
