Put Men To Work Gainfully

The people of Prince Rupert are asked to co-operate for the purpose of providing gainful employment for as many people as possible during the next six months. A group of canvassers will undertake to call on all local citizens asking for pledges from them that they will undertake to spend as much as possible and stating how much they plan to spend on gainful employment.

It is not the intention to interfere with the private concerns of our neighbors but to try to secure as much employment as possible as a means of improving local conditions.

We have set as our objective the sum of \$50,000

If every person will undertake to spend some money in such a way as to make conditions better, we shall easily attain our object.

The pledge cards will be kept private in order to prevent solicitation on the part of those who may be trying to secure advantage from the campaign.

We are not an employment agency and have nothing to say as to who shall be employed or what they shall be paid. That is between the employer and employee. All we ask is that the money be expended. The provincial employment officer can supply men if required.

Things in the home, outside the home, in office buildings and factories are beginning to look the worse for wear. And there are hundreds of unemployed hands wanting and willing to do those jobs. You need the work done—they need the money for the necessities of life.

Help make these idle hands earning hands, for the good of the community and the happiness and self-respect work brings to an idle man or woman.
