## SEARCHING FOR BODY

No Success Yet in Efforts to Recover Body of Georgie Elliott From Bulkley River

The provincial police have stretched a net across the Bulkley River at the head of Hagwilget Canyon near Hazelton in the effort to recover the body of 11-year old Georgie Elliott, only child of Mr. and Mrs. Robert Elliott of Smithers, who was drowned at 11:30 last Saturday morning in the falls of the river at Moricetown while fishing. According to latest reports, the body had not yet been recovered and it was rather doubtful that it ever would be.

Georgie was visiting with a playmate, George Grant, also of Smithers. They were staying with the latter's father, William Grant, who is fishery inspector at the Moricetown Indian village while the salmon are running and the Indians are catching and smoking the fish.

The boys were to have gone home that evening and wanted to take along a salmon caught by themselves. They were fishing a couple of hundred yards below the highway bridge when Georgie hooked a big salmon. He was standing on the rock at the edge of the river and the tugging of the salmon on his line caused him to lose his footing and he slipped in.

The river is a raging torrent at this point and up to the falls and the lad made a game fight against the swift water of the canyon but it was too much for his strength and he was taken down in one of the many whirlpools and not seen again. At one point his young playmate managed to get his fish hook and line caught in Georgie's clothing but it tore loose as he tried to pull him to the shore.

Mr. Grant was notified in a few minutes and a search to find the body was started. The Indians immediately stopped their fishing and, taking their gaffing poles, started down the river, dragging in all the holes and eddies.

Georgie Elliott was born in Smithers 12 years ago and is survived by his parents, a sister having predeceased him several years ago. He excelled in all athletic sports, but for him fishing was more than all the others. His father is a veteran of the Great War and a prominent member of the Smithers branch of the Canadian Legion. He conducts a boot and shoe store in Smithers and runs a repair shop.

Fishing in the Moricetown Canyon is at best a dangerous sport and there have been several near accidents of a similar nature, even with the older people. More than one man has had to abandon his fishing rod and tackle to the fish to keep from losing his balance and toppling into the river.

### FOUR RESCUES IN MONTH

VANCOUVER, Aug. 19, (CP)—Five years ago doctors told William Campbell he had only six months to live. He took physical culture lessons, won his battle with death and now is making a habit of saving others from the same fate. During the last month he has "saved" four persons from drowning in Vancouver waters.

Mr. and Mrs. John Dybhavn and son, George, and daughter, Alma, returned home on last evening's train from Lake Kathryn where they have been spending the season at their summer home.
