THE WAR SITUATION

We talk of the war situation but the only thing that seems almost sure is that Italy will try to subdue Ethiopia with a view to making the country an Italian dependency. Because Britain is moving troops and ships to the Mediterranean does not necessarily mean that the Empire will become implicated in the dispute. It simply means that Britain will be ready in case British rights should be infringed upon, in case Italy should take affront at the economic pressure which may be brought to bear on her if she commences hostilities or in the event of policing measures being necessary to enforce international law.

Canada has joined Britain in her policy of standing by the League of Nations sanctions, which provide for bringing economic pressure on any nation disobeying the mandates of the League. It is presumed that if Italy considers this a cause of war with Britain the same will obtain with Canada but we yet feel that there will be no war in which this country will be implicated.

OF THIRD IMPORTANCE

Owing to the supreme importance of the European situation and the secondary importance of the pulp mill situation so far as Prince Rupert is concerned, the political campaign has been relegated to third place. Although less than a month to polling date Prince Rupert people do not seem at all excited about the political situation. Meetings are not being very well attended and those who do attend have not yet allowed themselves to give vent to any very keen expressions of opinion. It seems to be the fashion to listen and think.

TOO MANY MOTOR ACCIDENTS

There are too many motor accidents. Drivers do not show sufficient care with high powered machines and the result is that many lives are lost every day. It is probable too that liquor has a great deal to do with many of the accidents which occur. Under its influence it is difficult to use proper care. It is impossible to say how many lives are lost because of too free indulgence in whiskey or other liquors but undoubtedly the percentage is very great.

MAKINGS OF A SPEAKER

Jack Sargent, who spoke here for C. H. Orme in the political contest now going on, is rapidly developing into a good speaker. He was most interesting at the recent Conservative meeting and, if he keeps up the work, should in a few years become an orator of first rank. We are glad to see the young men of the district coming to the fore and fitting themselves for public life.

Hazelton Players Pay Babine Visit

Happy Six Dance Orchestra Went North by Horseback to Attend Three Day Celebration

HAZELTON, Sept. 18:—The Hazelton Happy Six Dance Orchestra made a very successful trip by horseback early last week to Fort Babine. Those making the trip were Billy Wales, Philip Turner, Billy Smart, Benny Wales, Johnson Alexander and Charlie Smith.

The party left Hazelton on Monday and camped that night at Cottonwood Camp, 22 miles out. After supper, they started to rehearse some dance music in the open air and, while they were playing, they saw three big moose. Next day the musicians were on the trail again and entered Fort Babine village in the afternoon and remained for three days to participate in a celebration program. About five hundred persons attended the first dance and on three successive evenings there were dances which were equally popular. On the last night gifts were presented by the Babine chiefs to the Hazelton musicians. Starting for home last Saturday, the orchestra was safely back on Sunday.

SPORT CHAT

Two women and one man were seriously injured and seven others were hurt in the collapse Sunday of part of the grandstand during an exhibition work-out at his training quarters at Speculator, New York, of Max Baer, former world's heavyweight boxing champion, who is preparing for his bout on September 24 with Joe Louis, Chicago negro. Two thousand fans were in attendance. Baer was weary and obviously in poor condition at the end of six rounds with four sparring partners. Jack Dempsey left in disgust at Baer's showing. The Californian play-boy is still, however, talking of a two-round victory. Meanwhile from his camp in New Jersey came reports that Louis was in the pink of condition in an impressive work-out before a record-breaking crowd of 3000 fans.

Bruin Attacks And Trees Man

Chased up Tree by Parent Bears When Watching Cubs Play

VICTORIA, Sep. 18: (CP)—Bruce McMicking, son of Dr. and Mrs. A. E. McMicking of Victoria, has decided that bear cubs are best left alone, especially when "Mama and Papa" bear are around. Bruce is placer mining at Squaw Creek in Northern British Columbia and when he was wandering through the woods recently he saw two grizzly bear cubs playing in the bush and walked closer in order to get a better look at them. The old bears were closer than he thought, however, and when they appeared on the scene he made for the closest tree as fast as he could, believing he would be safe in its upper branches. The bruin parent's pounded on the trunk of the tree in an effort to dislodge him but were unsuccessful and decided to wait until he came down. He had no idea of doing this, however, and was forced to stay in the tree until long after dark before the bears departed so he could come down and return safely home. Bruce now believes it is much safer to view grizzly cubs when they are in a cage than it is in the woods.

DETROIT OPENING

Expected World Series Will Start There on October 2. Scene Then Shifting to Chicago, St. Louis or New York

CHICAGO, Sept. 18: (CP)—The 1935 World Series will open either at Detroit or New York on October 2 as, in the event of the Cardinals winning the National League pennant, it will be impossible to accommodate the Series crowds in St. Louis owing to a convention there on the opening date, it was decided at a meeting yesterday with Judge Kenesaw Mountain Landis, commissioner of organized baseball, presiding. Ordinarily it would have been the National League club's turn for the opening games this year.

The American League pennant race is now centered between the Detroit Tigers and the New York Yankees with the chances strongly in favor of the former who are now eight and a half games ahead, having lost a close decision to the Red Sox yesterday while the Yanks were winning a similarly close game from the St. Louis Browns at the Yankee Stadium.

The National League race is still between the Chicago Cubs, St. Louis Cardinals and New York Giants with the chances of the last-mentioned gradually fading. The Giants fell further back yesterday by dropping another game to the Cubs at Chicago while the Cardinals kept within two and a half games of the leading Cubs by dividing a double-header with the Brooklyn Dodgers at Sportsman's Field. It was the fourteenth straight victory for the Cubs. The Reds, by dropping both ends of a double-header to the Phillies at Cincinnati, fell into sixth place below the Brooklyn Dodgers.

Yesterday's Big League scores:

National League
Boston 4, Pittsburgh 6.
Philadelphia 3-1, Cincinnati 2-0.
New York 3, Chicago 5.
Brooklyn 2-8, St. Louis 4-7.

American League
Chicago 3, Washington 1.
Cleveland 5, Philadelphia 3.
St. Louis 3, New York 4.
Detroit 4, Boston 5.

SEEKS NEW AIR RECORD

Howard Hughes of Los Angeles to Attempt to Span Continent in Ten Hours

LOS ANGELES, September 18 — Howard Hughes, young film producer aviator, who set a new speed record of 355 miles per hour over a three kilometer measured course, announces that he will attempt to span the continent in ten hours to lower the record of Col. Roscoe Turner of ten hours and two minutes.

Model Sets Limit On Sheer Dresses

Finds Her Own Job All in Day's Work But Self-Conscious At First

NEW YORK, Sept. 18: (CP)—Jean Roth, who makes a living by posing for sculptors and painters, considers it immodest for a girl not to wear a slip with a sheer dress. Tall, exquisitely proportioned, she is representative of hundreds of girls whose physical beauties are chiseled in marble or daubed on canvas by rather temperamental persons who pay them \$5 for three hours or \$10 a day.

Jean is 20 years old, lives alone in a one-room apartment and enjoys her work because the people she meets seem glamorous and she feels she contributes something—"maybe one-fiftieth"—to what her artist-employers produce. She is known as the "sweet and innocent" type.

When she first posed in the nude—it was two years ago, for a sculptor in Palm Beach—she felt self-conscious. Now it's all in a day's work, although she declines to pose for artists whose looks she doesn't like.

Working steadily, she has made as much as \$95 a week, but she averages about \$30. Girls who pose for advertisements make more money, but their faces "wear out" sooner; that is, people get tired of seeing them.

Some models are noted particularly for their faces, others for their figures. Paintings frequently are created from one model's shoulders, another's legs, another's head and so on. Jean was the feet in one painting, but since she is beautiful both of face and figure, she usually is model enough for one artist.

She "adores" artists, but doesn't intend to marry one because "they are too temperamental." She intends to continue posing until she marries and then she'll stop if her husband doesn't like the idea.

Engineer From Rocky Mountains Becomes Deputy Minister of Interior

Keen outdoor man, enthusiastic member, and a past president of the Trail Riders of the Canadian Rockies, and a leading stalwart in the ranks of the Trail Riders, J. M. Wardle, chief engineer, National Parks of Canada, has won well deserved promotion to the post of deputy minister of the Department of the Interior at Ottawa.

Although only in his "forties", Mr. Wardle has been rated as one of the most efficient officers and in 1927 the road known as the Kicking Horse Trail, from Lake Louise, Alberta, to Golden, British Columbia, was also completed. He has supervised the building of the "east leg" of the Bir-Bond highway along the Columbia River from Donald, B.C., to Boat Encampment, and recently was placed in charge of the construction of the "west leg" from Revelstoke, B.C., north to Boat Encampment. This highway when completed will form the final link in the western section of the trans-Canada highway.

The latest highway project to come under Mr. Wardle's supervision was the road now under construction from Lake Louise to Jasper, Alberta. Mr. Wardle has also had charge of all other construction work in the National Parks. He takes over his new duties with the best wishes of his many friends in the Rockies, and, indeed, throughout Canada.
