France and Britain Have a Difference Over German Navy

Britain Asked to Defend France Against New Navy to Be Built by the German Government

PARIS, June 21: (CP)—Premier Laval told Captain Anthony Eden today that France was dissatisfied with the Anglo-German navy agreement. Their conversations were interrupted in the middle of the afternoon though the French Premier avoided anything approaching an open breach. It is unofficially stated that France wishes Britain to guarantee to protect her against attack by Germany's new fleet. This Britain is unwilling to do.

The Bank of France announces lowering of the discount rates to five percent from six as it reports the return of gold, the loss of which recently caused the drastic boost in the rate.

ELECTION ILLEGAL

Another Meeting to Be Held Next Week to Choose Fair Board

It has been decided that the recent meeting of the Northern B.C. Agricultural and Industrial Association was illegal because none of those taking part and voting had paid the annual member's fee of one dollar which is necessary to comply with the statutory requirements.

The legal status of the organization is being considered by the city solicitor.

MINISTER IS VISITOR

Hon. Dr. G. M. Weir, Minister of Education, is in City and Will Address Meeting Tonight

Hon. G. M. Weir, minister of education in the provincial government, arrived this morning on the Prince George in the course of a tour of Northern B.C. points along the Canadian National Railways.

The minister will address a public meeting tonight in the City Hall at 8 o'clock when he will discuss educational questions, health insurance and a number of other matters that come under his particular department. He stated particularly that his visit is not political.

The Chamber of Commerce is giving a luncheon for him on Monday at noon.

The minister is said to be an excellent speaker and this is the first time he has visited the city since his joining the provincial cabinet.

His Majesty Trots By On Rotten Row

Notice the awe and reverential respect with which the groom doffs his hat in salute as His Majesty, King George of England, rides by on his horse. When the King rides by it is customary for other riders to take their mounts to the side of the famous bridle path (that takes on the antonymical name of Rotten Row) to let His Majesty pass.

Interior Crops Looking Well In Francois Lake District Where Farmers Appear Prosperous

Timothy Seed Saved Situation Last Year, Sum of \$27,000 Being Realized From First Grade of Seed

BURNS LAKE, June 21:—Crops are bounding upwards in the great agricultural areas of Francois and Ootsa Lakes south of here. Despite the late, cool spring, growth of the grains and grasses is now well ahead of last year as a result of the past few weeks of warm rains which have made ideal growing weather. Early season crop prospects were never better than they are today. The picturesque plains and park lands of the country between Ootsa and Francois Lakes are beautiful indeed today.

With the prices of meats, eggs and dairy products very disappointing during the past few years, farmers of this as well as the Bulkley Valley country have found the great demand for their fine timothy seed a real life-saver. The importance of this may be realized when it is considered that a production of 217 tons of seed was made last fall by the Francois Lake seed cleaning plant. Ninety-five tons of this graded No. 1 at 14c per pound, bringing some \$27,000 alone to the farmers of the district. There will be an even larger production this year than last and, even though the price may not be quite so high, there is promise of tidy revenue. Additional seed cleaning facilities may be needed soon.

Alfalfa hay and grain crops are well up. Despite the long hard winter, cattle herds appear to be in good shape and, notwithstanding the intention to concentrate on seed production, do not seem to be diminishing in number. The increased tie orders of the past winter are now bringing in steady revenue although the margin of profit to the producer may not be so large as might have been anticipated. Ties are now moving out steadily in good quantity. Promise of increased mining activity in the Babine district may also help Burns Lake this year. Already parties are in the field.

WRITE DOWN CAPITAL OF C. N. RAILWAY

Premier Bennett Not Very Favorable and Tells House of Commons His Opinion

OTTAWA, June 21:—Prime Minister Bennett has no objection to the recapitalization of the Canadian National Railways but believes it should not be done now and that whatever action is taken the books and reports of the company should always show the total amount invested in the railway by the people of Canada.

The Prime Minister read in the house yesterday a letter written by him to Hon. C. P. Fullerton, chairman of the board of trustees. Mr. Fullerton replied that the board in considering recapitalization was following recommendations of the Duff commission.

IN FAVOR HIGHWAY

Premier Pattullo Would Grant No Provincial Lands to Help Construction

VICTORIA, June 21:—That British Columbia would not grant any lands as means of financing construction of the Alaska Highway was indicated in a statement yesterday by Premier Pattullo. The statement was made following a suggestion in Washington by G. M. Murray M.L.A. for Lillooet that the province might consider such grants. The Premier said that otherwise he very much approved the building of an international highway from Alaska to Patagonia.

PROOFS OF THE BIBLE

Canon Rushbrook Told of Scientific Discoveries Showing Historic Accuracy Of Scriptures

In an interesting address on "The Relation of Archaeology to Biblical History," Rev. Canon W. F. Rushbrook set out to prove to the Rotary Club that the facts of the Bible are historically correct and therefore the Bible may be accepted as historical truth. Scientific men had declared that there was undoubtedly a moulding intelligence in the universe. God was unprovable but axiomatic. Some people spoke of the Bible as the source of Christianity and monotheism when it was really a history of the development of monotheism and of Christianity.

The speaker went on to speak of some of the discoveries of historic pottery and historic writings. The discoveries of recent years had set the date of various historic people and places and agreed with Biblical history. Records of the flood had been discovered and of all the patriarchs back to Adam. It was noticeable that Babylonian and Syrian scribes spoke of the flood. Abraham was said to have lived about 1700 years after the flood or about 2,000 years B.C.

An interesting mention in Biblical history was that of the Hittites. Uriaah, the Hittite, is mentioned but for years the Hittites were considered to be either a minor tribe or purely mythical. Now from more recent discoveries it had been shown that they were a very powerful nation, that they fought against the Egyptians and overcame them, routing the Egyptian army. It is also said that English writing, which is said to have come down to us from the Phoenicians, was originally obtained from the Hittites on the shores of the Black Sea where the Phoenicians were captives of the Hittites and lived among them for many years.

At the conclusion the speaker was thanked by President Little.

No Decision In Hauptmann Case
