RECIPROCITY TERMS AGREED UPON

Premier King Announces Settlement Reached With Roosevelt on Trade Pact

Details Will be Announced as Soon as Measure Has Been Signed—Lumber, Fish and Minerals Among British Columbia Products to be Affected

OTTAWA, Nov. 12: (CP)—Cutting short his holiday trip to the United States, Premier William Lyon Mackenzie King returned to Ottawa yesterday and, after a cabinet meeting, announced that complete agreement had been reached with President Franklin D. Roosevelt on the terms of a trade treaty. As soon as the treaty had been

ARMISTICE DAY HERE

Many Citizens Gather at Cenotaph For Impressive Remembrance Day Rites

A timely burst of sunshine favored Prince Rupert's annual observance of Remembrance Day at the cenotaph yesterday morning, hundreds of citizens joining with ex-service men, members of the naval and military services and other bodies in the parade and service at the cenotaph which marked the seventeenth anniversary of the closing of the Great War. The parade, as usual, was from the corner of Third Avenue and Third Street to the Court House grounds by way of Sixth Street and Second Avenue. Very Rev. James B. Gibson, dean of St. Andrew's Anglican Cathedral, acted as padre in charge.

The service was along the customary lines, opening with the singing of "O Canada" after which "Cease Fire" was sounded by Bugler William Rance followed by two minutes' silence in honor of the memory of the war dead. "The Last Post" was then sounded after which there was prayer by the Dean. The hymn "O God Our Help in Ages Past" followed and then was the address by Dean Gibson. The proceedings closed with the placing of wreaths and flowers on the cenotaph, sounding of "The Reveille" by Bugler Rance and the singing of "God Save the King." The Prince Rupert Boys' Band accompanied the singing.

Memorial Address

In his memorial address, Dean Gibson urged that that spirit of fellowship which had prevailed during the Great War be recovered and instilled into the commercial and national life of today. Results of the last war, he felt, had so far been disappointing. There was a spirit of disillusionment in the world today. In remembrance of the war dead, he urged that people today get back to God and bring in His Kingdom on earth. There was nothing more necessary than this today.

The guard of honor for the stone consisted of Company Quartermaster Sergeant S. P. Woodside, Private James Watt, Corp. J. A. Teng and Chief Petty Officer John Gibson (Royal Navy).

Church Parade

About 50 veterans and ten ladies took part in the church parade Sunday morning which was marshalled by President Jack Preece, the Prince Rupert Boys' Band, under Bandmaster Robert Greenfield, also taking part.

Dean J. B. Gibson conducted the service. The Scripture lesson was read by Major C. V. Ewitt. There was an anthem by the choir. Peter Lien presided at the organ.

officially signed, probably later this week, the Prime Minister said, the terms, now a closely guarded secret, would be made public. Announcement of the agreement was made simultaneously by Premier King here and by President Roosevelt at Washington. Mr. King, who interrupted his holiday to return to Ottawa to discuss the treaty with the cabinet, will go back to Washington to sign for Canada after which he will resume his vacation.

Meantime, it is reported unofficially that the agreement includes concessions on lumber, certain grades of fish and minerals, both metallic and non-metallic, which will benefit British Columbia and on agricultural products and live cattle which will benefit the prairies. Alcoholic liquors are also Canadian products which are believed affected.

United States products likely to figure largely are thought to include mining, electrical and some farm machinery and a wide range of manufactured articles not produced to any extent, if at all, in Canada and some raw or semi-manufactured products.

Premier King, at a newspaper conference, said he hoped the treaty would "show to a troubled and anxious world a better way of solving its difficulties." He said the treaty would not interfere in any way with the Ottawa Empire trade agreements.

President Roosevelt in Washington in an Armistice Day message to the United States said: "I am privileged to tell you that between us and a great neighbor another act cementing our historic friendship has been agreed upon."

China Clipper Leaves Miami

Great New Flying Boat Coming To Coast To Start Trans-Pacific Service

MIAMI, Nov. 12:—The departure having been delayed on account of the storms this week, the great new Pan American Airways flying boat China Clipper left here at the week-end for San Francisco by way of Panama, San Diego and Los Angeles. She is scheduled to make the first trans-Pacific mail flight from Alameda to Manila on November 22. Pilot Edwin Musick, formerly of the Pan American Clipper, is in charge of the China Clipper which was at San Diego yesterday after a stop at Acapulco, Mexico.

Dr. A. Jure, well known engineer for the Consolidated Mining & Smelting Co., was a passenger aboard the Catala Sunday night going north to pay one of his periodical visits of inspection to the Big Missouri mine.

MUSSOLINI TO QUIT GENEVA SOON

WELSH MINERS EMERGE FROM DEPTHS

Despite the fact that they had engaged in a five-day stay-down strike deep in the pits, in which much hand-to-hand fighting took place, these miners of Glamorganshire, Wales, resume their debonair attitude upon coming to the surface. Police are escorting them home. They came from the Taf Merthyr pit in which men of the South Wales Miners' Federation came to blows with the members of the South Wales Miners' Industrial Union. Over 8,000 men are on strike against the employment of non-union labor. Headway has been made for a settlement.

ITALIANS GOING ON

Dijibuti-Addis Ababa Railway Is Menaced by Invaders

Rome Protests

Against League of Nations Sanctions—Ethiopia Ready to Make Stand

ROME, Nov. 12: (CP)—Meeting with little opposition at the hands of the Abyssinian defenders, Italian forces are continuing their advance into Ethiopia from two directions—out of Eritrea on the north and Italian Somaliland on the south. Emperor Haile Selassie is reported to be gravely concerned over the prospect of the Italians interfering with the Dijibuti-Addis Ababa rail line, Ethiopia's outlet to the Red Sea. This would cut off the Ethiopian source of supply of arms and general supplies and would be a body blow. The Italians advanced over the week-end perilously close to the railway line. This is evidently the principal Italian objective at this time.

The Standard Oil Co. of United States is now looked to by Italy as its principal source of oil supply instead of British companies following Standard Oil Co.'s announcement that it does not intend to follow the United States government's suggestion regarding refusal to supply war goods to belligerent nations.

Implicitly threatening her withdrawal from the League today, Italy lodged an official protest with the League of Nations at Geneva against its aggressor in the Ethiopian campaign, pointing out that sanctions had not been imposed against Japan in 1932 on account of its campaign in China nor had they been imposed in connection with the Gran Chaco war between Paraguay and Bolivia. Notes protesting at the sanctions, which become effective next Monday, were sent all countries adhering to the sanctions.

Will Have No Effect

LONDON, Nov. 12: (CP)—Authoritative British sources said today it was inconceivable that Italian protests would have any effect on application of sanctions.

Ethiopians Ready

ADDIS ABABA, Nov. 12:—One hundred thousand native warriors of Ethiopia are ready to defend the mountains south of Makale against further invasion by the Italians, it was declared here last night. An official Ethiopian report said that so far 600 Italians had been killed and 150 Abyssinians.

Missing Flier Now in Dawson

Pilot Jack Herman And One Of His Passengers Come Over Trail From Cassiar Roadhouse

DAWSON, Nov. 12:—Pilot Jack Herman and O. Ogran, one of his passengers in the plane which was forced down at Cassiar roadhouse on the Yukon River thirty-five miles south of here a week last Saturday and for the safety of which some fears had been entertained, arrived here at the week-end over the trail in search of help. Herman explained that he had been forced down by engine trouble and made a safe landing.

Herman had some bad luck when, in taking off with another Bellanca plane to go back and pick up remaining members of the party, the plane went through the thin ice on the Yukon River and was put out of commission.

Trains Running Normally Again

Heavy Snowfall in Lower Skeena Forces Ploughs Into Action

Following the repair of flood damage in the lower Skeena Valley three weeks ago, traffic has been restored to normal on the local line of the Canadian National Railways. The first regular passenger train to arrive from the east since October 23 came in at 4 o'clock Sunday morning, about five and a half hours late, and was followed by a wayfreight at 1 o'clock yesterday morning. Last night's train for the east left on time at 6 o'clock and the next train is due tonight at 10:20 but will probably be four or five hours late. There is quite an accumulation of railway business following the tie-up.

On Sunday there was a heavy snowfall in the lower Skeena Valley and snow ploughs had to be put into operation along the railway line.
