TWO THOUSAND MEN

DAILY EDITION

Monday, January 28, 1935

One of the interesting features of the annual report of the Chamber of Commerce published Saturday was that part prepared by Dr. J. T. Mandy, resident mining engineer, in which he stated that two thousand men were employed in mining in this district. The number is larger than we could have supposed. It means a large payroll and is a People's Society elected officers for very important factor in the prosperity of the province.

WELCOME TO VISITORS

We are glad today to extend a hearty welcome to a great many visitors who have been forced to travel through elected). Prince Rupert in order to avoid further delay in reaching their destination. We forgive the constant gibes of the people of the south in regard to our weather, remembering | Kazue Kanaya and Kazu Nakamoto. that it is probably wormwood and gall to them to have to come this way because of the rain and snow and flood conditions in the south. We hope they will enjoy the trip thoroughly and make a point of coming this way again when weather conditions are better. Possibly when they arrive they may remember that Prince Rupert is in the bananal belt and is a particularly pleasant place to visit in the summer. Come and see us when the flowers are in bloom. The tulips are already showing themselves and many other noon from the south, Capt. Thomas bulbs will be up within a few days.
