### Had Good Year

Mrs. D. Orchard McLeod Speaker at Annual Meeting

were elected for 1935.

40°C the past year had been one of the in the welfare of their children. 23c most successful years in the history of the association. With a record

The election of oficers for 1935 ties resulted as follows:

President, Mrs. D. C. Stuart. First Vice-President, Mrs. Neal ECONOMY STORE Carter.

Second Vice-President, Mrs. E. B.

> Secretary, W. W. C. O'Neill. Treasurer, Miss S. A. Mills. Program convener, Mrs. W. C. As-

Memorial School, Mrs. J. W. Kil-

patrick.

and W. W. C. O'Neill. Membership convener for King Edward High School is to be ap-

pointed at next regular meeting. Mrs. McLeod Speaker

Following the election of officers, Mrs. D. Orchard McLeod gave a very interesting address on the subect of "The Appreciation of Education." At the outset, Mrs. McLeod, traced the origin and progress of elementary education in the districts of Eastern Canada settled by the United Empire Loyalists and paid glowing tribute to the efforts of those pioneer settlers who, in spite of hardships and difficulties. endeavored to give their children the very best education it was in their power to give. The Christian church also played a noble part in this early effort to lay the foundation of an educational system for Canada, and the founding of denominational colleges and universities was the first step in the establishment of higher educational facilities for the youth of Canada.

"The splendid system of elementary, secondary and higher education enjoyed by the people of this country today is a fitting monument to the work of these first Canadian pioneers in education," declared Mrs. McLeod. "We, today, should dwell with much appreciation upon the efforts of those men and women who played their part so well in attaining this result and at the same time we should show our appreciation of the efforts of those who, in our own day, are trying to make even better the educational opportunities provided for our youth."

Mrs. McLeod reminded parents, who were prone to criticize certain subjects of the high school curri-

culum, that often pupils must form HEAD OF years of their youth and frequently these very subjects were found to be very necessary foundation for success in the carrying out of their

The speaker made a strong plea for constructive thinking with regard to education. Such thinking would bring about results which would ennoble life and promote Louis L. HOW TO MAKE DARNING

more DIFFICULT!

CEWING and darning demand even more

of from the eyes than reading. Nature didn't

plan for such tasks! She had outdoor, dis-

tance seeing in her mind. So, to keep the

nervous muscular tension as low as possible

-and to avoid eyestrain-we must give care

to light. For light is the scientific partner of

seeing. Let's not do the equivalent of wear-

Proper home lighting is vitally important, if

we want to escape the defective vision suffered

by 71% of all persons under fifty years of age.

It should be second nature always to have the

correct size of lamp bulb in every socket . . .

never to read in a glare spot or in shadow.

One of our lighting experts will gladly make

a helpful lighting survey, free, in your home.

KEEP THESE LIGHTING RULES IN MIND

Use lamp bulbs of the correct wattage . . . never less

than 40-watt Edison Mazda Lamps for three socket

lamps, 60-watt for two socket lamps, 100-watt for

Have all lamp bulbs shaded. For portables, a shade

light in color, wide in spread, and open at the top.

Never read in the glaring light from bare bulbs, or

in your own shadow. Always use bulbs of reputable

make. Inferior bulbs burn out and blacken quickly.

ing smoked glasses!

single socket lamps
