### ALL PREMATURE

One of the Vancouver papers is full of the suggestion that Premier Bennett will not be back to take his place again as leader of the government and speculates as to his successor. It is intimated that Hon. H. H. Stevens is likely to be the new leader as the only Conservative who could hope to win the coming election.

While it seems as if all this speculation were premature and not in very good taste, it must be admitted that there seems to be a possibility of a change of leadership before the election and we are inclined to agree with the Vancouver paper that Mr. Stevens is the hope of the Conservative party. While Mr. Bennett fired the hope of the young Conservatives when he made his eloquent announcement over the radio, and if the election could have been held at that time it is quite possible he would have been re-elected, since then the program he announced as being so revolutionary has been shown to be just an appropriation of part of the policy of the Liberal opposition and the Liberals have co-operated in passing the legislation. There is little now left of the Bennett policy except the promise that work would be found for those at present unemployed, a similar promise to that made on the hustings prior to the last election. In view of this the Conservative hopes have been gradually waning and only the most enthusiastic members of the party see victory ahead if the battle of ballots is to be fought with Mr. Bennett at the head and with nothing more on which to base their pleas for re-election than the now famous radio speeches of the leader.

### CONSERVATIVES WAITING

The Conservatives of Skeena have delayed nomination of a candidate, evidently waiting and hoping that something would happen to make it easier for them. It will cost a lot of money for the candidate to travel all over the huge constituency, to hire halls, provide transportation and make provision for the hundred and one minor expenditures incident to an election campaign. Very few men are willing to give both time and money to the cause in exchange for the honor of either tacking on the letters "M. P." to their names for a few years or going into the discard as "the defeated candidate for Skeena." Very few people can afford to do it.

Naturally then the illness of Mr. Bennett at this time is anything but opportune, for the present Prime Minister is known to have spent three-quarters of a million dollars of his own money in fighting the last election and he is expected to spend lavishly on the coming campaign. If he should drop out, it might affect the hopes of the local Conservatives.

This is all speculation of course and we all hope and pray that Mr. Bennett will be restored to perfect health in a few weeks and will lead his party at the election, if not to victory at least to an honorable defeat.

THE ROYAL BANK OF CANADA

## THAT FIRST BRANCH BANK AND 500 MORE

The founders of the Bank of Montreal firmly believed in branch banking. Two weeks after opening the Bank in Montreal on November 3rd, 1817, the directors appointed an agent at Quebec. By the following June the agency was made an "Office of Deposit and Discount," and thus the first branch came into being. Two others soon were created—at Kingston and York (afterward Toronto).

Those early bankers sought to extend and perpetuate for the farmers and merchants, the benefits and stimulus of a branch banking system the worth of which had been abundantly proved in the British Isles.

Thus they introduced one of the elements of elasticity

for which the Canadian banking system has received so much praise.

Consistently, throughout the decades, the Bank of Montreal has added branches wherever business warranted, giving to new and growing communities the advantages of banking strength, ample facilities and sound management. Today over 500 branches are serving Canada. Each branch is the Bank of Montreal, with all the facilities and public service for which the institution is known.

From the first branch in Quebec to the most recent one opened, the spirit of the Bank of Montreal is expressed—and will continue to be expressed—in terms of useful banking.
