DAILY EDITION

Saturday, January 19, 1935.

A DOUBTING THOMAS

Captain Hugo Sandstrom who discovered the remains of the creature said to be a baskin gshark, is still doubtful if the scientists are right. He says he has had a long experience with sharks in the North Sea and he never knew one with hair all over its body as this one evidently had. He says that when it was found the skeleton was lying in a bed of hair from one end to the other. This could only mean that it was a hairy monster.

In a letter published yesterday Captain Sandstrom challenges those who say this is a shark, to catch a real shark and bring it in and show the world. If they are as common as stated he thinks this should be quite easy. Until that time the Captain suggests we should stick to the belief that we have the remains of a sea serpent.

PROCESSED COAL

If it is possible, as has been announced more than once, that coal can be changed into a liquid fuel at a cost that will make it popular, it is to be hoped that steps will be taken as early as possible to instal a plant and make a practical demonstration. It would be to the general benefit to have the fuel produced at home if it can be done economically.

There are huge coal fields in Northern and Central British Columbia and if these were worked it would be a great thing for the whole province. We hope that the scientists who have been trying to solve the fuel problem through the utilization of coal will succeed.

CHURCH NOTICES

FIRST PRESBYTERIAN CHURCH
Preacher—Rev. W. D. Grant Hollingworth, B.A.
Organist: Mrs. E. J. Smith

New Boats Building at Cow Bay—Getting Reduction Plant Ready For Reopening—Returning From Biological Board Meeting

Japanese boat builders in Cow Bay at Prince Rupert are quite busy these days, several new boats being under construction on contract while more building jobs are expected between now and the spring when boat repair work will start preparatory to the opening of the 1935 fishing season. I. P. Matsumoto, in the old Suga establishment, will have completed within ten days a 38-foot combination trolling and halibut boat for Hans Antonsen. A 30 h.p. Union diesel engine has been installed. With the completion of this boat, construction of a 31-foot troller for George Ladicos will start at the Matsumoto yard, a 15 h.p. Vivian engine to be installed.

The Suehiro yard is planking in a 33-foot troller for Mike Haapala. This boat will be equipped with a 16 h.p. Regal engine. On this boat being finished, Suehiro will complete a 40-foot combination troller and halibut boat work on which was suspended on the contract for the Haapala boat being received. This boat is at present stored inside the Cow Bay bridge.

K. Tsumura at the Kiy Boat Works is putting on the deck of a 34x10 combination trolling and halibut boat. By the time the boat is finished it is expected it will have been sold.

Thomas Anderson superintendent of the Nelson Bros. Fisheries Co.'s reduction plant at Tucks Inlet, returned to Prince Rupert on Wednesday of this week after having spent a couple of months in Vancouver. The same day he left for the plant which is being put in readiness to resume operations as soon as the herring run commences.

Dr. Neal Carter, director of the Prince Rupert Fisheries Experimental Station, will return to Prince Rupert on Wednesday next, after attending the annual meeting of the Biological Board of Canada in Ottawa. On his way back from the east, Dr. Carter is spending a few days in Vancouver where last night he opened a series of radio broadcasts dealing with work of the Prince Rupert station to which other members of the scientific staff will later contribute each Friday night with papers. John Dyb-havn returned to Prince Rupert yesterday afternoon on the Princess Adelaide after attending the annual meeting of the Biological Board.

Sigmund Einstoss of New York, who has been in Ketchikan for a week in connection with the organization of Alaska salmon trollers for the co-operative marketing of their product, passed through the city on the Princess Norah Thursday afternoon bound for Seattle whence he will proceed east. Mr. Einstoss is reported to have signed up all the Alaska trollers.

The Indian Department's power cruiser Naskaema made a trip on Thursday to Metlakatla with Indian Agent W. E. Collison and Dominion Constable A. J. Watkinson. It was nomination day for the 1935 council at the neighboring village.

Three members of the deck crew of the steamer Cardena, which was in port last evening from the south, were suffering slightly from frost-bite, the result of the exceedingly cold weather encountered by the vessel on her voyage up the coast. At Bella Coola when the Cardena called there Thursday morning it was ten below zero and at Ocean Falls, two below.

Capt. Steve Gray, skipper of the steamer Princess Adelaide, in port last evening from the south, reported having encountered a violent northerly gale while steaming up Dean Channel to Ocean Falls Thursday evening. So strong was the wind that it lifted up a heavy deck box filled with life-belts on the upper deck and turned it completely over. It was one of the heaviest winds Capt. Gray had ever experienced and was intensely cold.

An abatement of the strong northerly wind is being awaited before the John Currie & Son power tug C. R. C. with piledriver in tow departs for Silver City near Alice Arm where a new float is to be put in for the federal department of public works. For a week now an opportunity to get away has been awaited. John Currie, the head of

the firm, plans to leave for Alice Arm on the Catala tomorrow evening. The Frank Waterhouse freighter Southalm is now on its way from Vancouver north with lumber and other material to be used in the float construction.

Philip M. Ray and his Northern Shipping Co. suffered severely in yesterday morning's big fire which wiped out the Hays Block containing the concern's offices. Mr. Ray lost all his books and records as well as office furniture and equipment. Some of the more important papers, however, it was hoped, might still be intact in the safe. Mr. Ray, despite his loss, was still smiling today as he opened up a new office on the third floor of the Besner Block.

The Letter Box

RADICAL REFORM

Editor, Daily News:—

Allow me to join in commenting on this most extraordinary event of Premier Bennett's conversion to the new conception of the function of the modern state, the urgent necessity of the disciplinary intervention of the state in regulating the national economy and making it serve the needs of the people instead of serving the selfish interests of the privileged few as hitherto.

British Columbia can congratulate Mr. Bennett for having broadcasted, with such eloquent language its enacted principles of the economic council, wage board and the already copied Marketing Act. They are the essential preliminary steps of the reform of the system, which Mr. Bennett so energetically advocates.

Mr. Editor, I beg to differ from you when you say that Mr. Bennett has given Conservatives new hope. It is rather hard to make the new world fast coming into being fit the straightjacket of old politicians. Toronto, Vancouver, Winnipeg and Edmonton have spoken very clearly that they want a change and not the old line-up.

Five years of untold suffering and unwarranted misery have convinced the Canadian people that the mere expedient of the politicians is not going to suit them.

Politicians can run as close a race to radicalism as they like. The best horse will win. The race will be strongly contested but not on the old ground. A new political alignment is inevitable. The radical reform required to change the system cannot be performed by partyism for mere party's sake. The stern reality will compel the powers that be to serve the nation and not the party.

The political issue is shifted. The issue for the forthcoming Dominion election stands now between the C. C. F. and the disciplinary intervention of the state in the control and regulation of economy.

Mackenzie King has yet to speak but he can only measure up the extent he is ready to go in regulating economy. He has already taken one step—that is the nationalization of credit. Why so much hesitation in endorsing Premier Pattullo's policy?

V. BASSO-BERT.

Mrs. E. L. Wasson, wife of the well known Yukon commercial flier, and little daughter, Barbara, were passengers aboard the Princess Norah Thursday afternoon going through for a visit in Vancouver. Mrs. Wasson resides in Carcross.

SPORT NEWS

Jap Runners Make New Marathon Record

As a grand finale to the sports carnival held in the Meiji Sports Stadium in Tokio, contestants from every district of Nippon took part in the marathon run which produced what is being hailed as a new world's record for the distance, twenty-six miles, three hundred and eighty-five yards. Yoshizo Kusunoki (right), was the winner.

BILLIARDS

STILL LAG

No Less Than Four Fixtures Are Incomplete—Only Half of Games Played on Thursday

As a result of the playing of three of six games in Thursday night's Billiard League fixture between Grotto and Empress, the latter are leading by the narrow margin of 636 to 631. The individual scores of the three games played were as follows:

Don Brown, Grotto, 250; E. Cameron, Empress, 136.
Earl Batt, 222; A. Donald, 250.
T. Kerrigan, 159; Pete Pritchard, 250.

The following games were postponed: George Howe, Grotto, vs. M. E. Young, Empress; Bert Morgan vs. Len Raabe, J. Sutherland vs. R. McLeod.
One more game was played in the fixture from Tuesday night, Alex Harvey, Canadian Legion, defeating W. E. Williscroft, Elks, 250 to 227. On the two games so far played, the Elks are leading 477 to 462. The following games remain to be played: G. P. Tinker, Canadian Legion, vs. C. P. Balagoo, Elks; G. A. Woodland vs. James Andrews, C. L. Youngman vs. William Stuart, George Cripps vs. J. E. Morris.

Outstanding games of M. E. Young, Empress, vs. G. A. Woodland, Canadian Legion, and Pete Pritchard vs. C. L. Youngman from Thursday night's fixture of last week remain to be played, Empress having an aggregate lead to date of 959 to 907.

Two long outstanding games from the fixture of December 11 between Elks and Canadian Legion—James Andrews vs. Alex Harvey and J. E. Morris vs. George Cripps—also remain to be played, the aggregate score so far being 1000 to 727 in favor of the Elks.

BILLIARD SCHEDULE

January 22—Empress vs. Elks.
January 24—Grotto vs. Legion.
January 27—Grotto vs. Elks.

WATCH

For the Announcement of the

New General Motors Cars

CHEVROLET - PONTIAC OLDSMOBILE - BUICK

Your choice should be a General Motors Car—a product of the foremost engineering and scientific ability in the industry. General Motors engineers recently tackled the problem of power for the stream lined trains. The result was the WINTON-DIESEL engine which sped the NEW UNION PACIFIC STREAMLINED TRAIN from Los Angeles to New York—a distance of 3334 miles—in 56 hours, 55 minutes.

The Same Engineering Skill Guides the Progress of General Motor Cars

An Eye to the Future — An Ear to the Ground
This describes General Motors policy, a policy by which the public gets what it wants in better cars year after year, and yet is safely protected against ill-timed or dubious experiments.

KAJEN MOTORS LTD.

Third Ave. W. Prince Rupert, B.C.

We cordially invite you to tune in on the General Motors HOCKEY BROADCASTS
Next game tonight, 7 p.m. local time. Toronto Maple Leafs vs. St. Louis; Montreal Maroons vs. Americans.
