EDUCATION WEEK HERE

Local Observance of National Campaign Planned

The week of February 3-9 has been set aside as Dominion Education Week when, throughout the whole of the Dominion, the important part education plays in the present life of and, even more, the contribution it is making to the future of the world will be stressed. Previously this observance has been a province-wide affair but this year it has been planned to make it a nation-wide feature.

Locally it is being supported by all organizations. The local churches through their services this Sunday or next will discuss this subject. At the Gyro, Rotary and Junior Chamber of Commerce meetings it is planned to have the matter presented in a series of debates by senior pupils.

In the schools an open day will be observed on Wednesday afternoon from 1:30 till 3:30. Parents and general public are being asked to visit the schools on that afternoon and see the pupils in their classrooms.

Wednesday evening in First Presbyterian Church Hall a public meeting will be held. Speakers at this will discuss the part of education from both the point of view of the business man and the point of view of the educationalist.

Government's Action Acclaimed From All Sides of Parliament

Agricultural Credits Organization to be Overhauled With Increase in Money Available From Fifteen To Ninety Millions

WEATHER SUPERIOR

Year 1935 Starts Off Better Than Last—Vastly Better Here Than In Vancouver

The year 1935 has started off a good deal more propitiously from the weather standpoint than did 1934, official records show. This January there were 38.9 hours of sunshine as compared with 6.6 hours in the same month last year. Precipitation this January totalled but 6.84 inches in comparison with 22.9 inches in the same month last year. Incidentally, Prince Rupert can also boast truthfully of having had much superior weather so far this year than Vancouver which city last week had eleven inches of rain within five days.

The official weather summary for January this year reads as follows: Highest barometer reading at sea level, 30.41 on January 13. Lowest barometer reading, 29.13 on January 5. Maximum temperature, 54 on January 29. Minimum temperature, 5 on January 17. Mean temperature, 31.3. Precipitation, 6.84 inches. Sunshine, 38.9 hours.

MISSION OF CHURCH ARMY

Children's Great Response—Attendance Increased

Captains Hutchison and Hanney addressed the various congregations Thursday that assembled in St. Andrew's Cathedral at the Church Army Mission.

To an increased number of children Captain Hanney spoke on temptation, drawing his message from stories and experiences.

At the evening service Mrs. C. E. Cuffin sang "Glory to Thee," and, by special request, Capt. Hanney sang the Welsh hymn, "Aberystwyth."

The address of Captain Hutchison was based upon the story of the creation. He pointed out that creation was a definite proof of God's love, that God had not only created an earthly home for men to live in, but that also He had created the church as a spiritual home. So long as nothing comes between people and God, happiness is assured. "God does not leave us, we leave God." As Adam sought to hide himself behind the trees, so today man tries to hide from God behind excuses. Like Adam, when they hear the voice of God saying, "Where art thou my son?", it is the call of the Father to the conscience of the child who has wandered away from home.

Friday's Services
Friday's services were in preparation for "The World Call Service of Witness," which will draw the week of mission to a close on Sunday evening. In the afternoon there was a children's service with Capt. Hanney as speaker. In the evening Capt. Hutchinson spoke on "The Power of God." Mrs. A. J. Webber and Capt. Hanney being soloists with Peter Lien presiding at the organ.

HERE FROM FLOOD AREA

Rev. J. E. Barnes of Chilliwack Tells Of Conditions of Distress and Hardship in Fraser Valley

Rev. J. E. Barnes of Chilliwack, who is a visitor in the city, describes conditions in the Fraser Valley as a result of the recent floods as being most disastrous. It has been a catastrophe which will take that district a long time to recover.

Two-thirds of the pole lines are down and Chilliwack will have no light or power for a couple of weeks at the best. Meantime, the city is entirely without regular means of communication and transportation. To get through the flood waters, people have just to struggle back and forth as best they may by boat or any other means at hand. Hundreds of houses are marooned by the high waters and refugees run into the thousands. There are unprecedented scenes of distress on all hands in that fertile valley. There has been widespread destruction. Floods have not been entirely unknown in the Fraser Valley in the past but never has there been anything like this before.
