NO WONDER HE FELT AND LOOKED SO MUCH BETTER

Half in fun and half because he occasionally "felt punk", a college chap joined 39 other students to form a test class or clinic. It was desired to test on this class the recuperative power of a certain. tonic preparation, the formula of which was known to have bloodbuilding qualities.

Like the other 39, this young man's blood was tested and the "count" of red corpuscles and red colouring matter was found well below normal. No wonder he "felt punk" at times. He was given the tonic and returned in thirty days to have his blood tested again, There was no doubt about improved health. He looked it and felt it. His blood test showed that red corpuscles and red colouring matter had strikingly increased. No wonder he felt and looked so much better.

Would you like to feel better, too? Would you like to be keen again about study or work or play? Then take this "tested tonie" which proved such a benefit to the forty college students. It restores well-being by increasing the red corpuscles and red colouring matter of the blood-those carriers in the blood stream which must be kept up to normal numbers if the person is to possess health and vitality. This tested tonic is Dr. Williams' Pink Pills. Easy to take whether at home, at college or at business. Recommended for all who feel run-down, over-tired, nervous or "low", or are under-weight. Your druggist has this tested tonic-Dr. Williams' Pink Pills, price 50c.
