An inquiry is made as to what is meant by the "sanctions" of the League of Nations which it is proposed to enforce against Italy. It is understood the last and most important sanction is not necessarily to be enforced. It is "the use of combined armed forces against the aggressor state." The others to which France it is understood has agreed are:

"The severance of all trade or financial relations.

"The prohibition of all intercourse between their nationals and the nationals of the covenant breaking state.

"The prevention of all financial or personal intercourse world Series, had their lead cut to between their nationals and those of the aggressor state."
