"TOOK ALL KINDS OF PILLS, THEN CEREAL BROUGHT RELIEF"

Constipation, Due to Insufficient "Bulk," Relieved by Kellogg's ALL-BRAN

A fine letter from Mrs. Snyder: "I have had trouble" with my bowels for years, taking all kinds of pills and drugs, with no relief.

"One year ago, I saw Kellogg's ALL-BRAN and bought a package. I have good movements every day. I am 73 years old. I am telling my friends what bran has done for me." —Mrs. Sallie Snyder. Address upon request.

**Constipation due to insufficient "bulk" in meals.*

Research shows that Kellogg's ALL-BRAN furnishes "bulk" to exercise the intestines. ALL-BRAN also supplies vitamin B, as well as iron, an element of the blood.

Two tablespoonfuls daily are usually sufficient to correct common constipation. With each meal, in serious cases. If not relieved this way, see your doctor.

The "bulk" in ALL-BRAN resists digestion better than the "bulk" in leafy vegetables. How much better to use this food in place of patent medicines.

At all grocers in the red-and-green package. Made by Kellogg in London, Ontario.

Mrs. George Hill left on the ss. Prince John at the week-end for Massett to visit with her mother, Mrs. Ward.

Dr. E. Geiling, scientist, who has been studying the glands of the whale, went over on the Prince John Saturday night to Rose Harbor.

Mrs. James Farquhar left the Hospital Saturday and spent the week end at the home of Mr. and Mrs. James Parker in the Leeds Apartments. She was there joined by Mr. Farquhar of Surf Inlet who will this evening accompany her to Terrace where they will spend a couple of weeks with Mrs. Farquhar's mother, Mrs. Marsh.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1981 C. M. Co.

BIG MINING OUTFIT IN NORTH

(Continued on page three)

the Manson Creek country, nearly 200 miles north of here, of a 26-ton steam shovel and dragline outfit, constituting the largest single piece of mining equipment that has, possibly, been transported under such difficult conditions.

Last February the outfit, consisting also of two tractors and one four-ton truck, left here for the long trip north. The bridge across the Nechako River just north of here not being strong enough to bear it, the idea was to haul it across the ice. It, however, went through the 18-inch ice not far from the shore. It was dragged out and the ice was trestled for the rest of the crossing after which a start was made on the moving of the shovel up the road to Fort St. James. The road had to be widened at several points. The fording of the Stuart River just below Fort St. James was another feat which exacted much engineering ingenuity. Finally, by May 5, the outfit had reached a point fourteen miles north of Fort St. James. Here a halt had to be made owing to the soft condition of the ground with the frost coming out. Recent rains prevented a resumption of the movement until last Friday when the outfit started north again.

By October it is expected the placer ground on Manson Creek opposite the confluence of Slate Creek will be reached. Intervening problems will include the fording of the Nation River and the virtual building of almost forty miles of road on the north end before the destination is reached.

The taking in of the shovel outfit will conclude this season's work of MacDonald Placers. Next spring dredging of extensive rich placer ground will commence. Meantime, however, a crew of men will be flown in next month to erect the camp and build a flume as well as other preparatory work.

Mr. MacDonald is confident of success in his big venture but also admits the possibility of failure. "Even so, however," he remarks, "we will have done something to open up the country and provide employment."
